FOR ADDITIONAL INFORMATION ON:

County's
Household Hazardous Waste Collection Program
Visit our website,
www.CleanLA.com
or call our Hotline,
1(888) CLEAN LA
1(888) 253-2652

Upon 72 hours' notice, Public Works can provide program information and publications in alternate formats or make other accommodations for people with disabilities. In addition, program documents are available at our main office in Alhambra (900 S. Fremont Ave., Annex 3rd Floor), which is accessible to individuals with disabilities. To request accommodations ONLY or for more Americans with Disabilities Act information, please contact our departmental Americans with Disabilities Act Coordinator at (626) 458-4081 or TDD (626) 282-7829, Monday through Thursday, from 7 a.m. to 5:30 p.m.

The County offers a mail-back Sharps waste disposal program that is limited to ONLY elderly and disabled residents. To request a mail-back container, please call our hotline at 1 (888) CLEAN LA. Available while supplies last.

Printed on recycled content paper.

Frequently Asked Questions

What is home-generated sharps waste?

“Home-generated sharps waste” means hypodermic needles, pen needles, intravenous needles, lancets, and other devices that are used to penetrate the skin for the delivery of medications derived from a household, including a multifamily residence or household.

Can I throw my sharps waste in the trash?

No, it is illegal. If you self-inject at home, State law prohibits disposal of your sharps in the trash.

Where do I place my sharps waste once they have been used?

You must place your sharps waste in a proper, State-approved container. You can pick one up for free at a County designated distribution site, while supplies last. Distribution sites are listed on the back.

Once filled, how can I dispose of my sharps container?

When your sharps container is about 3/4 full, seal it tightly and take it to a County designated collection site as soon as possible. At that time a new container can be obtained. Collection sites are listed on the back.

What happens when sharps waste is not properly disposed?

Sanitation and landfill workers or anyone that handles your trash can be injured. Also, leakage may occur from leftover liquid in sharps and contaminate groundwater, rivers, and the ocean.

Safely manage your SHARPS WASTE

- The proper way to dispose of sharps waste is to use State-approved sharps containers. Check availability at the County designated distribution sites or ask your pharmacist or doctor.
- Keep your sharps containers out of reach of children and pets.
- When your sharps container is about 3/4 full, seal it securely.
- Bring your filled sharps container to any of the following collection sites for proper disposal. At this time a new container can be obtained, while supplies last:
 - 1) Los Angeles County Household Hazardous Waste Collection Events
 - 2) Antelope Valley Environmental Collection Center (AVECC)
 - 3) City of Los Angeles' S.A.F.E. Centers
 - 4) Los Angeles County Department of Public Health

(Additional sites may be available at www.CleanLA.com)

DO NOT...

- Flush your sharps waste or medications down the toilet or drain.
- Place your sharps waste in the trash, green waste, or recycling bin.
- Put needles into used plastic milk jugs or soda bottles.
