Dear Assembly Member McCarty:

**SUPPORT – ASSEMBLY BILL 1506 (McCARTY) AS AMENDED ON
JANUARY 15, 2020 – SOLID WASTE: COMMERCIAL AND ORGANIC WASTE:
RECYCLING BINS**

The Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force (Task Force) **supports** Assembly Bill 1506 (AB 1506), as amended on January 15, 2020.

If enacted, the proposed legislation would provide recycling and organics container exemptions for mobile food service facilities within amusement parks and other attractions. The bill would authorize a business subject to the organic waste recycling services requirement to implement recycling organic waste alternatives that yield results comparable to or greater in volume and quality to results attained by providing an organic waste recycling bin or container. This bill would declare that it is to take effect immediately as an urgency statute.

The Task Force supports the proposed legislation because the bill would provide reasonable exemptions and alternative options for a business subject to the organic waste recycling services requirement.

Pursuant to Chapter 3.67 of the Los Angeles County Code and the California Integrated Waste Management Act of 1989 (Assembly Bill 939 [AB 939], as amended), the Task Force is responsible for coordinating the development of all major solid waste planning documents prepared for the County of Los Angeles and the 88 cities in Los Angeles County with a combined population in excess of ten million. Consistent with these responsibilities and to ensure a coordinated and cost-effective and environmentally sound solid waste management system in Los Angeles County, the Task Force also addresses issues impacting the system on a countywide basis. The Task Force membership includes representatives of the League of California
