The Honorable Lorena Gonzalez, Chair
Assembly Committee on Appropriations

Dear Assembly Member Lorena Gonzalez:

**SUPPORT – ASSEMBLY BILL 1201 (TING) AS INTRODUCED ON
FEBRUARY 18, 2021 – SOLID WASTE: PLASTIC PRODUCTS: LABELING:
COMPOSTABILITY AND BIODEGRADABILITY**

The Los Angeles County Solid Waste Management Committee/Integrated Waste Management Task Force (Task Force) **supports** Assembly Bill 1201 (AB 1201), as introduced on February 18, 2021.

The proposed legislation, if enacted, would prohibit the sale of a plastic product that is labeled with the term "compostable," "home compostable," or "soil biodegradable" unless the product meets certain American Society for Testing and Materials (ASTM) standards for compostability including having certification from the Biodegradable Products Institute (BPI) or a third party approved by the Director of the Department of Resources Recycling and Recovery (CalRecycle) for meeting compostability and toxicity standards.

AB 1201 would also authorize CalRecycle to adopt regulations for plastic product labeling to ensure that plastic products labeled "compostable" or "home compostable" are clearly distinguishable from noncompostable products upon quick inspection by consumers and solid waste processing facilities.

Pursuant to Chapter 3.67 of the Los Angeles County Code and the California Integrated Waste Management Act of 1989 (Assembly Bill 939), the Task Force is responsible for coordinating the development of all major solid waste planning documents prepared for the County of Los Angeles and the 88 cities in Los Angeles County with a combined population in excess of ten million. Consistent with these responsibilities and to ensure a coordinated and cost-effective and environmentally sound solid waste management system in Los Angeles County, the Task Force also
