

LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 29

MALIBU BRANCH FEEDER REALIGNMENT

Scope:

Relocate over 1,000 feet of the region's water main to the current PCH alignment. The City of Los Angeles is constructing the Potrero Canyon Preserve above the existing waterline and it must be relocated to ensure its structural integrity.

Location:

Pacific Palisades — Pacific Coast Highway, south of Temescal Canyon Rd.

Benefits:

Ensure structural integrity of water main, improve water supply reliability, and protect health and safety of existing customers.

Status:

Design phase

Construction:

8/2018 to 1/2019
