

Compton/Woodley Airport Monthly Newsletter

August 15, 2024

From the Airport Manager

Latanya Collier (lcollier@dpw.lacounty.gov)

Hello Compton/Woodley Airport! As fall approaches we are in full preparation for the upcoming 100th Year Celebration and Open House to be held at the airport on October 26, 2024.

We are still asking for you to share some of your older pictures on and around the airport. We would love to showcase them in some way during the event. If you would like to share, please bring your old photos to us in the terminal building so that we can scan them. I thank you all in advance for your much needed support on this!

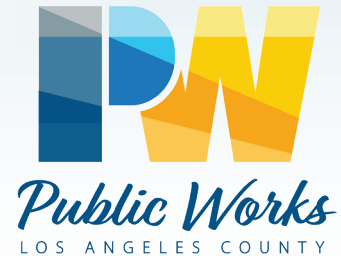

Airport Ops & Admin

We are scheduling and conducting annual hangar inspections to coincide with the renewal of your gate card. Please make sure that you are prepared with current insurance and registration and airworthiness status for your aircraft. If you have any questions about what is required of you for the annual hangar inspections, feel free to contact us. Also, you do not have to wait until the renewal of your gate card for an inspection of your hangar. You may contact us any time to make arrangements for the annual inspection.

Please remember:

- The Wash Rack is strictly for aircraft washing only.
- There is no overnight vehicle parking on the airport.
- Please ensure your aircraft are stowed in hangars or secured on tiedowns only and **NOT** between the hangar rows.
- It is strictly prohibited to dispose of trash in the airport bins that is brought in from outside the airport.

Thank you for your cooperation!

Airport Events & Activities

Board of Supervisors Approves Updated Rents for Non-Aeronautical Use of Aircraft Storage Hangars

At their regularly-scheduled meeting on August 6th, the Los Angeles County Board of Supervisors approve the update of rents for the non-aeronautical use of aircraft storage hangars at the County airports. The non-aeronautical rental rates have not been adjusted since 2019.

The Federal Aviation Administration requires that airport sponsors charge a fair market commercial rental rate for non-aeronautical use of airport storage facilities. The new rental rates, determined through a recent study, are expected to commence in October of this year. Notices will be mailed to all airport tenants impacted by the updated rents.

2024 FAA Reauthorization Act

On May 16th, 2024, President Biden signed into law H.R. 3935, the “FAA Reauthorization Act of 2024”. In addition to reauthorizing the Federal Aviation Administration for the next 5 years and providing for an unprecedented \$4 billion in annual grant funding to airports for eligible projects, the Act addresses various issues impacting general aviation airports. Issues include airport closure, the availability of 100LL aviation gasoline, and ensuring the safe and efficient testing and integration of new technologies such as drones and advanced air mobility into the airspace, among others.

For more details on the general aviation related provisions of the 2024 FAA Reauthorization Act, see the AOPA’s summary by clicking or scanning the QR Code to the right.
