From the Airport Manager

Danny Hagle (dhagle@pw.lacounty.gov)

The airport is still experiencing a problem with the overflow of trash bins. Just a reminder the bins are for airport use only. The lid on the roll offs have to be closed all the way at all times. Another issue is overnight camping in the parking lot with RV camper is only permitted with a permit from management.

Another reminder, the annual customer service survey has been extended until June 30, 2024. It is available in the airport office or online at <https://pw.lacounty.gov/go/avisurvey>. Your feedback is greatly appreciated!

Airport Ops & Admin

Airport maintenance and hangar work orders is a current hot topic at Fox Airfield (WJF). Rest assured that your voices are being heard. We continue to make progress on addressing airport and hangar work orders. We encourage everyone to continue using your online Yardi accounts to submit all maintenance-related work requests. This is the best and fastest way for airport management to assign and track the progress from the time a work order is submitted to the time it is completed. This also allows us to monitor any delays and provide status updates directly to our tenants.

Airport security and situational awareness is everyone's responsibility. Since the beginning of the year, airport operations have observed, intercepted, and reported multiple instances where unauthorized vehicles have entered the airport. As a friendly reminder, please be sure to monitor your gate access when entering and exiting the airport to help us maintain the safety and security at WJF. WJF is now conducting airport hangar inspections. Please contact Airport Manager Danny Hagle at Dhagle@pw.lacounty.gov or call (661) 940-1709 to schedule your inspection.

Aviation Commission Meetings

Wednesday, June 26

7 p.m. to 9 p.m.

Brackett Field Airport
1615 McKinley Avenue
La Verne, CA 91750

Wednesday, August 28

7 p.m. to 9 p.m.

UL94 Unleaded Avgas Available Soon

Swift's UL94 unleaded aviation gasoline will be available soon. Once available, fueling services for UL94 will be on Monday through Sunday, from 6 a.m. to 10:45 p.m.

In order to purchase UL94 for your aircraft, you will need to obtain a Supplemental Type Certificate (STC) for your aircraft and have the STC placard properly displayed on your aircraft. UL94 will only be dispensed into properly certified aircraft. It will not be dispensed into containers or other vehicles and equipment.

Hangar Inspection and Insurance Requirements

The hangar inspection program is intended to verify that hangars that are rented for aircraft storage are used for that purpose and to ensure the safety of all airport tenants. Aircraft must be airworthy with a current annual inspection or there must be a plan in place to bring the aircraft airworthy within a reasonable period of time.

Storage of hazardous materials is not permitted, as outlined in the lease agreements. Fire extinguishers must be certified and easily accessible. Hangar electrical systems should not be modified and electrical devices should be unplugged when not in use.

Finally, proof of proper general liability, automobile liability, and property insurance must be provided annually by all aeronautical and non-aeronautical storage tenants in accordance with the terms of your lease. If you have any difficulty securing the necessary insurance, please contact our office for assistance. We are committed to working with you for the protection of all tenants.
