

REQUIREMENTS FOR DISCHARGES GREATER THAN 100,000 GALLONS TO LACFCD AND COUNTY MS4 AND OTHER DRAINAGE FACILITIES

Attachment C

Information required for record keeping for all planned and unplanned discharges greater than 100,000 gallons:

- Name of discharger
- Date and time of notification to LACFCD
- Method of notification
- Location of discharge
- Discharge pathway
- Receiving water
- Date of discharge
- Time of the beginning and end of the discharge
- Duration of the discharge
- Flow rate or velocity
- Total number of gallons discharged
- Type of dechlorination equipment used
- Type of dechlorination chemicals used
- Concentration of residual chlorine
- Type(s) of sediment controls used
- pH of discharge
- Type(s) of volumetric and velocity controls used
- Other BMPs that were implemented during the discharge
- Field and laboratory monitoring data
