| <input type="checkbox"/> Commerce (WTE)                | <input type="checkbox"/> Spadra Landfill        |  |

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  N.A.

(If unkown SRRE data will be used.)

What quantity went to landfills?  N.A.

What quantity went to waste-to-energy facilities?  N.A.

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?  N.A.

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?  N.A.

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  N.A. will get back to us.

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

Pebble Beach

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?   
 What quantity went to waste-to-energy facilities?  *Incinerated*

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?  *N.A.*

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  *1993 data*

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  T.P.Y. not available  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  n/a

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?   
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?   
How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  Yes  No

What type of additional transportation is needed?   
How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services *haulers would like to take the initiative*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority Grant for used oil recycling responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?   
(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?   
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *Haulers are responsible for 25% diversion*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  *unknown*

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?  estimate

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No possibly, especially for back-ups

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *N.A. they accept nearly everything already!*

22. Does your City participate in the County's HHW program?  Yes  No *need more nearby & ok to host more*

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No *new mgr. will emphasize involvement*

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?  unknown

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  of base year generation

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?   
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  includes 3433.63 tons yardwaste  
 (If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  *unknown*  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

*Question not asked*

25. What quantity of waste was diverted in 1994 (tons per year)?  *unknown (2,857 min.)*  
(If unknown SRRE data will be used.)

LOS ANGELES COUNTY  
COUNTYWIDE INTEGRATED WASTE MANAGEMENT SUMMARY PLAN

SURVEY FORM

City ID: 28

Survey Date: 6/13/95

Printed On: 7/31/95 2:09:24 PM

1. City Name: El Segundo
2. Contact Name: Jack Hilton
3. Contact Title: General Services Manager
4. Contact Dept.: Public Works
5. Phone: (310) 322-3769
- 5a. Phone 2:
6. Fax: 310-414-0911
7. What City Department is responsible for waste management? Public Works

RESIDENTIAL COLLECTION - DISPOSAL

8. Type of Residential Service:  Franchise  Contracts  Permits/License  Government  
*only 6% residential in city; rest commercial*

9. Number of Haulers Providing Residential Service: 1

10. Does your City have collection Districts for residential collection?  Yes  No

If Yes, how many Collection Districts are there? 0

Name of Collection District(s):

11. Which Transfer Station(s) are used for residential waste? (Check all those that apply)

- |  |  |
|--|--|
| <input type="checkbox"/> Action Transfer Station, Gardena              | <input type="checkbox"/> Paramount Resource Recycling Facility, Paramount  |
| <input type="checkbox"/> Advance Transfer Station, LA                  | <input type="checkbox"/> South Gate Transfer Station, South Gate           |
| <input type="checkbox"/> Bel Art Waste Transfer Station, Long Beach    | <input type="checkbox"/> Waste Recovery Transfer Station, South Gate       |
| <input type="checkbox"/> Beverly Hills Transfer Station, Beverly Hills | <input type="checkbox"/> Waste Transfer and Recycling, LA                  |

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?  green waste

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services *currently implementing progrms no set method*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?   
 (If unknown SRRE data will be used.)

What quantity went to landfills?   
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?   
 How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?   
 How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No + City HHW facility

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?   
 (If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No *only state-mandated regs*

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No *MRFs*

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

- Yes  No *depends on location of MRF*

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

*also Pac Bell phone book recycling*

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?   
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  unknown  
(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  26,333 collected, 24,213 disposed  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?   
How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?   
How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

17. Which Landfills/Waste-to-Energy Facilities are used for commercial waste? (Check all those that apply)

- |   |   |   |
|---|---|---|
| <input type="checkbox"/> Azusa Landfill           | <input type="checkbox"/> Lancaster Landfill     | <input type="checkbox"/> Sunshine Canyon Landfill |
| <input type="checkbox"/> Bradley West Landfill    | <input type="checkbox"/> Lopez Landfill         | <input type="checkbox"/> Other Landfill           |
| <input type="checkbox"/> BKK Landfill             | <input type="checkbox"/> Puente Hills Landfill  | <input type="checkbox"/> Don't Know               |
| <input type="checkbox"/> Calabasas Landfill       | <input type="checkbox"/> Scholl Canyon Landfill | Name of Other Landfill(s)                         |
| <input type="checkbox"/> Chiquita Canyon Landfill | <input type="checkbox"/> SERRF (WTE)            | *BKK, *Spadra, *Puente Hills                      |
| <input type="checkbox"/> Commerce (WTE)           | <input type="checkbox"/> Spadra Landfill        |   |

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  untrackable since residents can take anywhere; C/D; also  
 (If unknown SRRE data will be used.)  
 What quantity went to landfills?  TPY N.A.  
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No depends on hauler's needs -- all or 0  
 What type of additional storage is needed?   
 How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  
 Yes  No  
 What type of additional transportation is needed?   
 How much additional transportation is needed in tons per year?  current haulers can handle, but only if all of their customers sign up.

21. What methods will be used to handle additional materials targeted for recycling?  
 Franchise Agreement  Contracts  Permits/Licenses  Government Services council would probably seek a volunteer

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No  
 If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No  
 If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  N.A. for 1994 -- use SRRE

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?  *does not include green waste*  
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No *7 cities*

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  *unknown*

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *Council would be involved as well*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

Antelope Valley

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?   
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No *as far as known*

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No *interested in exploring this option*

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No *interested in exploring this option*

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  *only through curbside program*

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  res = 6000-7000 TPY almost all incinerated  
(If unknown SRRE data will be used.)

What quantity went to landfills?  comm'l only  
What quantity went to waste-to-energy facilities?  complete est.

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *resolution to alter bsn. license to req. on-site SR*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  estimate: 76 tons per month  
(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No *commercial bldgs*

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No *would not be stored on city land*

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *Western Waste*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *non-exclusive*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)? 0

(If unknown SRRE data will be used.)

What quantity went to landfills? 0

What quantity went to waste-to-energy facilities? 0

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed? None

How much additional storage capacity is needed in tons per year? 0

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed? None

How much additional transportation is needed in tons per year? 0

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *probably*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority? West San Gabriel Valley

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives. \_\_\_\_\_

25. What quantity of waste was diverted in 1994 (tons per year)? 0

(If unknown SRRE data will be used.)

## Recycling Implementation Programs

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  N. A.  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?   
How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  Yes  No

What type of additional transportation is needed?   
How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority loosely responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  N. A.

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services *exclusive*

22. Does your City participate in the County's HHW program?  Yes  No *they will*

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)? 53,117 No  
(If unknown SRRE data will be used.)

What quantity went to landfills? 46,763  
What quantity went to waste-to-energy facilities? 0

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed? N/A

How much additional storage capacity is needed in tons per year? 0

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed? None

How much additional transportation is needed in tons per year? 0

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority? East San Gabriel Valley

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives. \_\_\_\_\_

25. What quantity of waste was diverted in 1994 (tons per year)? 0

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  No

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  No  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?   
How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  
 Yes  No

What type of additional transportation is needed?   
How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?   
(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  *estimated*  
 (If unknown SRRE data will be used.)

What quantity went to landfills?   
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  
 Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services *franchise may be an option for 1996 when*

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  *commercial waste estimate*  
 (If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  No  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  
 Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No *former member of West San Gabriel Valley Group*

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

*member of SouthEast Working Group - recycling efforts/info sharing*

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  No  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?   
How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  Yes  No

What type of additional transportation is needed?   
How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  No  
(If unknown SRRE data will be used.)

What quantity went to landfills?   
What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?  
 Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

- Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  TPY N. A.

(If unkown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?  N. A.

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  No

(If unknown SRRE data will be used.)

What quantity went to landfills?

What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

*This group works together on a myriad of waste mgmt related issues*

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

18. What total quantity of waste was collected (disposed) in 1994 (TPY)?  No

(If unknown SRRE data will be used.)

What quantity went to landfills?   
 What quantity went to waste-to-energy facilities?

19. Does your City require additional storage capacity for recyclables (do you need additional storage yards, MRFs, transfer station capacity, recycling facilities)?  Yes  No

What type of additional storage is needed?

How much additional storage capacity is needed in tons per year?

20. Does your City require additional transportation needs for recyclables (rail cars, transfer trucks, etc)?

Yes  No

What type of additional transportation is needed?

How much additional transportation is needed in tons per year?

21. What methods will be used to handle additional materials targeted for recycling?

Franchise Agreement  Contracts  Permits/Licenses  Government Services

22. Does your City participate in the County's HHW program?  Yes  No

23. Does your City belong to a Joint Powers Authority (JPA) or other regional authority responsible for waste management?  Yes  No

If yes, what is the name of the authority?

24. Does your City participate in any regional or countywide market development initiatives?  Yes  No

If yes, name the initiatives.

25. What quantity of waste was diverted in 1994 (tons per year)?

(If unknown SRRE data will be used.)

**TASK FORCE REPORT TO THE CIWMB,  
DATED MARCH 28, 1991**

LOS ANGELES COUNTY  
SOLID WASTE MANAGEMENT COMMITTEE  
INTEGRATED WASTE MANAGEMENT TASK FORCE  
900 SOUTH FREMONT AVENUE ALHAMBRA, CALIFORNIA 91803-133  
P.O. BOX 1460 ALHAMBRA, CALIFORNIA 91800

THOMAS A. TIDEMANSON  
CHAIRMAN

March 28, 1991

WM-2

Mr. George Larson, Chief Executive Officer  
California Integrated Waste Management Board  
1020 Ninth Street, Suite 300  
Sacramento, CA 95814

Dear Mr. Larson:

REMAINING PERMITTED DISPOSAL CAPACITY OF  
SOLID WASTE FACILITIES IN  
LOS ANGELES COUNTY

Pursuant to the requirements of Section 41791 of the Public Resources Code regarding the date of submission of the Countywide Siting Element and the County Integrated Waste Management Plan for Los Angeles County, the following is offered.

The citizens of Los Angeles County are currently disposing of approximately 51,000 tons (1990 average daily disposal - six days/week) of solid waste per day. Approximately 43,245 tons of this waste are disposed of in 19 permitted Class III landfills (see Table 1, enclosed), 1,000 tons are managed by two waste-to-energy facilities (does not include the 500 tons of residual ash which is landfilled), and the remaining inert waste tons are disposed of at the permitted unclassified landfills.

At present, the remaining permitted Class III capacity in this County is estimated at 99 million tons (Table 1). Based on the 1990 average disposal rate of 43,245 tons per day (six days per week) as shown on Table 1, this capacity will be mathematically exhausted by the year 1999. However, this is misleading in that the majority of landfills have a number of restrictions which significantly impact their operations. These include expiration of the land use permit; restriction on acceptance of waste generated outside a jurisdiction and/or watershed boundary; permit restrictions on daily tonnage that can be accepted; and/or limitation on daily tonnage that can be handled at a facility due to lack of manpower and equipment.

At the present time, several of the operating Class III landfills have operating restrictions reducing available daily disposal capacity in the County. Burbank and Whittier (Savage Canyon) can only receive solid waste generated within their respective cities. Lopez Canyon can only receive solid waste generated by single- and multi-family residential customers within the City of Los Angeles which have been collected by City of Los Angeles Bureau of Sanitation trucks; while Puente Hills and Spadra are prohibited from receiving any waste

Mr. George Larson  
March 28, 1991  
Page 2

originating from the City of Los Angeles. Calabasas and Scholl Canyon Landfills only accept solid waste generated within defined watershed, while Brand Park, Pitchess Honor Rancho, and San Clemente are not open to the public.

As indicated in Table 1, Class III landfills had a permitted daily capacity of 63,950 tons in January 1991; however, this permitted capacity was reduced by 6,500 tons per day to 57,450 tons per day due to closure of Azusa Western Landfill as the result of a California Appellate Court decision. Additionally, by January 30, 1996, eight of the remaining landfills, representing 35,500 tons of permitted daily capacity, could be closed due to capacity limitations or the expiration of land use permits.

Based on the foregoing and utilizing a diversion rate of 25 percent, the County of Los Angeles will experience daily disposal capacity shortfalls within five years. Accordingly, the County will prepare and submit the CSE and the CoIWMF to the Board by January 1, 1992, pursuant to requirements of Section 41791 of the PRC.

We look forward to working with you in implementing the provisions of the California Integrated Waste Management Act of 1989, as well as other matters of joint interest.

Very truly yours,

T. A. TIDEMANSON, Chairman  
Los Angeles County Solid Waste Management  
Committee/Integrated Waste Management Task Force

HA:mc2/GL

## DIVERSION PROGRAM SUMMARY

Program Description	Existing Program (Yes/No)	TPY Diverted (1994)	Planned Program (Yes/No)	Date to be Implemented	Comments
Construction/Demolition	Yes	N/A	Yes		at hauler's discretion
<b>Special Wastes residential</b>					
Used Oil	No	N/A	Yes	8/1/95	joint project

Jurisdiction: Montebello

### Composting

Centralized Facility - Source Separated	Yes	N/A	Yes		Athens composting facility
Green Waste Curbside	Yes	N/A	Yes		daily cover

### Projected 1995 Diversion from L.A. County Solid Waste Quarterly Disposal Quantity Report

Diverted/Salvaged Materials	Yes	16692.6	Yes		
Landfill ADC	Yes	11720.8	Yes		

### Recycling Commercial

Source Separation	Yes	N/A	Yes		at haulers' discretion
Commungled	Yes	N/A	Yes		at hauler's discretion
Market Development	No	N/A	Yes		date N/A
Recycling Market Development Zone (RMDZ)	No	N/A	Yes	6/1/95	in process

### Recycling Residential

Curbside Collection - Sgl. Family Source Separation	Yes	N/A	Yes		
Curbside Collection - Sgl. Family Commingled Materials	Yes	N/A	Yes		
Curbside Collection - Multifamily Source Separation	Yes	N/A	Yes		old newspapers, glass, aluminum, plastic
Curbside Collection - Multifamily Commingled Materials	Yes	N/A	Yes		a few
Drop-Off Centers	Yes	N/A	Yes		
Buy-Back Centers	Yes	N/A	Yes		
X-mas Tree Recycling	Yes	N/A	Yes		date N/A

### Special Wastes

Construction/Demolition	No	N/A	Yes	7/31/95	
Tires	No	N/A	Yes	11/30/95	
RMDZ	No	N/A	Yes		date N/A

### Special Wastes residential

Used Oil	Yes	N/A	Yes		funded by the CIWMB Block Grant
Large Item Pickup	Yes	N/A	Yes		bulky items

Jurisdiction: Monterey Park

### Composting

Green Waste Curbside	No	N/A	Yes	8/1/95	ADC
----------------------	----	-----	-----	--------	-----

### Projected 1995 Diversion from L.A. County Solid Waste Quarterly Disposal Quantity Report

Diverted/Salvaged Materials	Yes	4231.84	Yes		
Landfill ADC	Yes	532.96	Yes		

### Recycling Commercial

Other Programs	Yes	N/A	Yes		MRF
----------------	-----	-----	-----	--	-----

### Recycling Residential

Curbside Collection - Sgl. Family Commingled Materials	Yes	N/A	Yes		
Manual MRF	Yes	N/A	Yes		multi-family
Mechanical MRF	Yes	N/A	Yes		multi-family
X-mas Tree Recycling	Yes	N/A	Yes

## DIVERSION PROGRAM SUMMARY

Program Description	Existing Program (Yes/No)	TPY Diverted (1994)	Planned Program (Yes/No)	Date to be Implemented	Comments
---------------------	---------------------------------	---------------------------	--------------------------------	---------------------------	----------

### Composting

Backyard Composting	Yes	N/A	Yes		workshops, bin discounts, and composting demonstration site
Market Development	Yes	N/A	Yes		contract with hauler to provide discount rate for park trimmings to go to nurseries
Other Programs	Yes	N/A	Yes		

### Projected 1995 Diversion from LA County Solid Waste Quarterly Disposal Quantity Report

Diverted/Salvaged Materials	Yes	3000.4	Yes		
Landfill ADC	Yes	142.72	Yes		

### Recycling Commercial

Source Separation	Yes	N/A	Yes		200 major business headquarters in Torrance, and numerous programs
Commingled	Yes	N/A	Yes		see above
Building Code Changes	Yes	N/A	Yes		
Other Programs	Yes	N/A	Yes		free waste audits; business assistance; economic development; and proposed waste exchange

### Recycling Residential

Curbside Collection - Sgl. Family Commingled Materials	Yes	N/A	Yes		
Curbside Collection - Multifamily Commingled Materials	Yes	N/A	Yes		4+ units by City; others by private haulers
Drop-Off Centers	Yes	N/A	Yes		handled privately
Buy-Back Centers	Yes	N/A	Yes		privately handled reverse vending machines and redemption centers
Intermediate Process Centers	Yes	N/A	Yes		uses facility just outside city limits
Manual MRF	Yes	N/A	Yes		
Building Code Changes	Yes	N/A	Yes		
Rate Structure Modifications	Yes	N/A	Yes		
Procurement Programs	Yes	N/A	Yes		in literature and at workshops

### Special Wastes Residential

Large Item Pickup	Yes	N/A	Yes		manure goes to planting companies
-------------------	-----	-----	-----	--	-----------------------------------

Jurisdiction: Vernon

### Projected 1995 Diversion from LA County Solid Waste Quarterly Disposal Quantity Report

Diverted/Salvaged Materials	Yes	9133.88	Yes		
Landfill ADC	Yes	52.76	Yes		

### Recycling Commercial

Source Separation	Yes	N/A	Yes		
Zoning Changes	Yes	N/A	Yes		
Procurement Programs	Yes	N/A	Yes		
Market Development	Yes	N/A	Yes		
Recycling Market Development Zone (RMDZ)	Yes	N/A	Yes		
Other Programs	Yes	N/A	Yes		education

### Recycling Residential

Curbside Collection - Sgl. Family Commingled Materials	Yes	N/A	Yes		
--	-----	-----	-----	--	--

Jurisdiction: Walnut

### Composting

Backyard Composting	Yes	N/A	Yes		
Green Waste Curbside	Yes	1373	Yes

## DIVERSION PROGRAM SUMMARY

Program Description	Existing Program (Yes/No)	TPY Diverted (1994)	Planned Program (Yes/No)	Date to be Implemented	Comments
Construction/Demolition	No	N/A	Yes		date N/A
<b>Special Wastes residential</b>					
Used Oil	Yes	N/A	Yes		
<b>Jurisdiction: Whittier</b>					
<b>Composting</b>					
Backyard Composting	Yes	N/A	Yes		county program
Green Waste Curbside	Yes	N/A	Yes		pilot program
<b>Projected 1995 Diversion from LA County Solid Waste Quarterly Disposal Quantity Report</b>					
Diverted/Salvaged Materials	Yes	38175.4	Yes		
Landfill ADC	Yes	9929.96	Yes		
<b>Recycling Commercial</b>					
Procurement Programs	Yes	N/A	Yes		city offices
<b>Recycling Residential</b>					
Curbside Collection - Sgl. Family Commingled Materials	Yes	2106	Yes		
Curbside Collection - Multifamily Commingled Materials	Yes	N/A	Yes		up to 8 units
Drop-Off Centers	Yes	N/A	Yes		
Buy-Back Centers	Yes	127	Yes		
Procurement Programs	Yes	N/A	Yes		
X-mas Tree Recycling	Yes	17	Yes		county program
<b>Special Wastes residential</b>					
Used Oil	Yes	N/A	Yes	8/1/95	pilot curbside
<b>Jurisdiction: Unincorporated LA County</b>					
<b>Composting</b>					
Backyard Composting	Yes	N/A	Yes		Countywide backyard composting program
Green Waste Curbside	Yes	16970	Yes		existing programs within the six GDDs, planned for all other areas
<b>Projected 1995 Diversion from LA County Solid Waste Quarterly Disposal Quantity Report</b>					
Diverted/Salvaged Materials	Yes	60162.36	Yes		
Landfill ADC	Yes	22681.72	Yes		
<b>Recycling Commercial</b>					
Source Separation	Yes	1608	Yes		Countywide departmental office paper recycling program
Salvage Operations	Yes	72900	Yes		60,200 (landfill diversion), 22,700(ADC), Figures are estimated annual rates of diversion and landfills based on quantities reported in the 1st quarter 1995
Procurement Programs	Yes	N/A	Yes		County departmental "Buy Recycled" policy
Recycling Market Development Zone (RMDZ)	Yes	N/A	Yes	7/31/94	
Other Programs	Yes	N/A	Yes		commercial/industrial technical assistance
<b>Recycling Residential</b>					
Curbside Collection - Sgl. Family Source Separation	Yes	19420	Yes		2,780 GDDs, collection through contract hauler; and 16,640 Others through County ordinance
Curbside Collection - Sgl. Family Commingled Materials	Yes	N/A	Yes	6/1/95	
Buy-Back Centers	Yes	N/A	Yes		Lenox Recycling Center
X-mas Tree Recycling	Yes	508	Yes		(winter 94-95), annual Christmas tree recycling program (Countywide)
<b>Special Wastes</b>

## **APPENDIX F**

### **RECYCLING MARKET DEVELOPMENT ZONES**

## L.A. County Recycling Market Development Zone FACT SHEET

### What is a Recycling Market Development Zone?

The California Recycling Market Development Zone (RMDZ) Program is the central component of the State's strategy to expand markets for recycled materials generated within the State. The goal of the RMDZ Program is to assist communities in meeting the mandates set forth in Assembly Bill 939 which mandates a 50% reduction in waste going to landfills by the year 2000. The RMDZ Program provides **direct, low-interest loans** and technical assistance to manufacturing businesses who utilize recycled feedstock and are located within one of the 40 Statewide RMDZ's.

The Los Angeles County Recycling Market Development Zone (LACRMDZ) includes the following cities: Burbank, Carson, Compton, Commerce, Covina, El Monte, Glendale, Huntington Park, Lynwood, Montebello, Pasadena, South El Monte, South Gate, and the City of Vernon. In addition, the LACRMDZ includes all of the unincorporated areas within Los Angeles County.

### Who Qualifies for this Program and What are the Benefits to Businesses?

The RMDZ Program targets businesses that use postconsumer or secondary waste materials to manufacture a new product or into a value-added form usable in the manufacturing of a new product. Eligible businesses must be located within a designated RMDZ. In addition to low-interest loans, RMDZ qualifying companies have access to technical assistance from, reduced utility rates (subject to Southern California Edison's eligibility criteria) and case management from the RMDZ Administrator

### Use of Funds

- Acquisition of equipment and machinery
- Leasehold improvements
- Working capital
- Acquisition of owner occupied real property
- Refinance onerous debt

### Rates, Terms & Fees

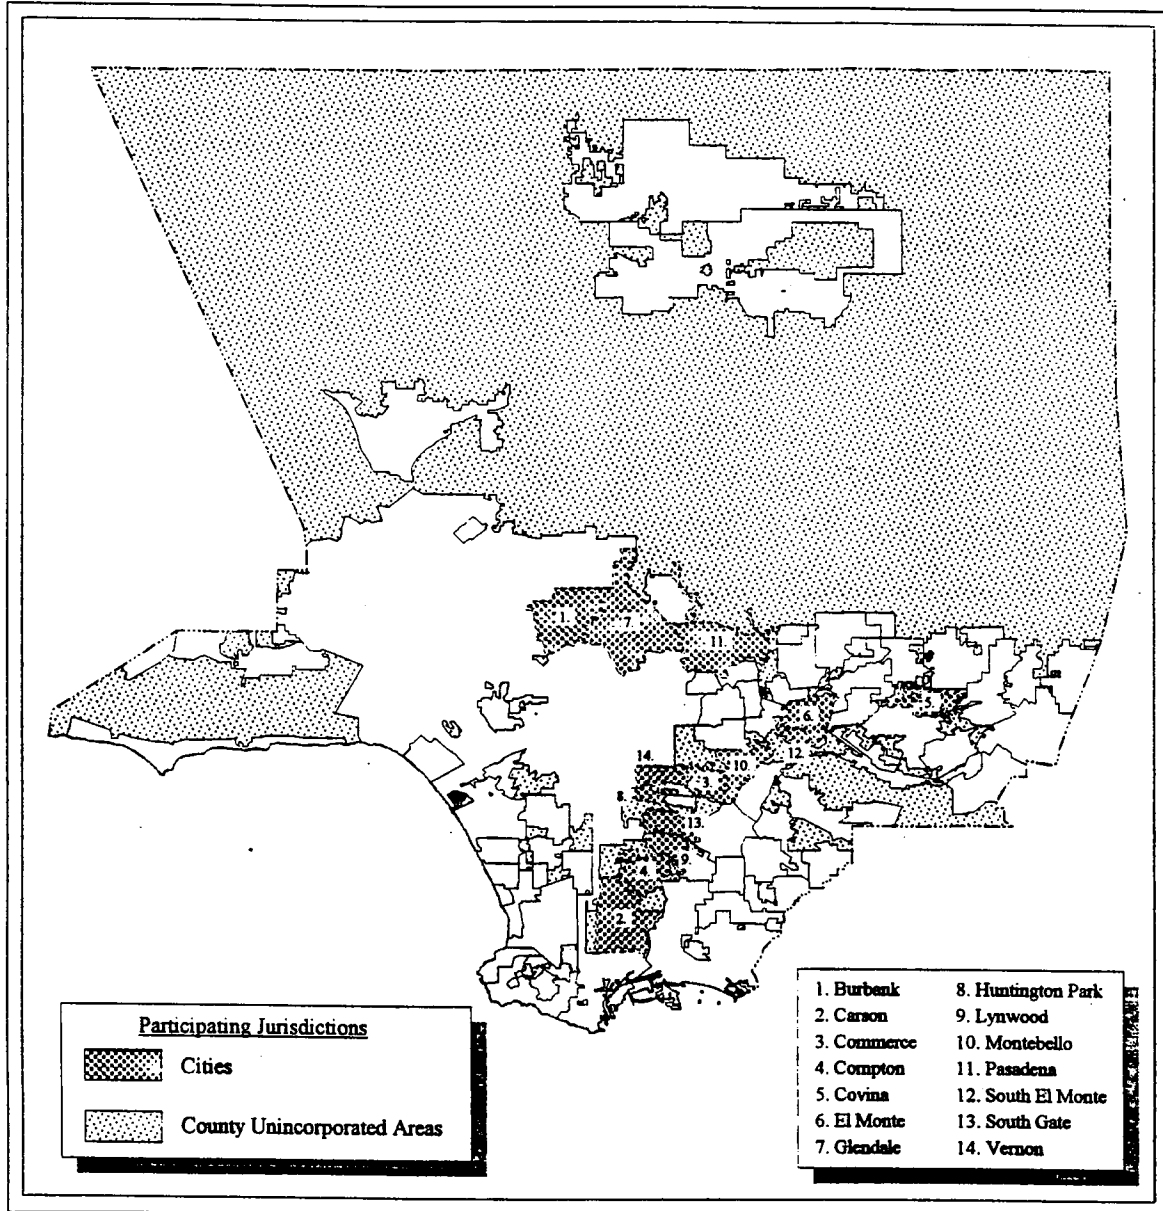

- Eligible businesses may borrow up to **50% of the cost of the project**, with a maximum loan amount of **\$1,000,000**
- Current interest rate is **5.5% fixed** (subject to change) with a term not to exceed 10 years
- A **nonrefundable application fee of \$300** is due at time of application submittal. A **loan origination fee** of three percentage points will be charged on each loan. Points are due at the time of closing. The points may be an eligible loan expense.

*If you would like any additional information regarding eligibility criteria please contact Monica Carlos, Zone Administrator for the Los Angeles County Recycling Market Development Zone (RMDZ) at (213) 890-7192.*

# LOS ANGELES COUNTY RECYCLING MARKET DEVELOPMENT ZONE

## PROGRAM INFORMATION

California Recycling Market Development Zones are a program of the California Integrated Waste Management Board. The CIWMB offers low interest loans up to \$1 million, technical assistance on financing strategies, and assistance in marketing zones nationally and internationally. *For more information on this program and other market development programs, contact the Board's Zone Administration Branch at (916) 255-2708.*

# LOS ANGELES COUNTY RECYCLING MARKET DEVELOPMENT ZONE

### TARGET MATERIALS

Materials identified to provide businesses with continuous feedstock include waste paper, plastics, glass, metals, yard waste, and organics such as rubber and tires and wood waste.

### INFRASTRUCTURE

Los Angeles County is the industrial hub of the southwestern United States, containing a large inventory of industrial floor space. There are many available properties well suited to accommodate recycling-based industries.

### INCENTIVES

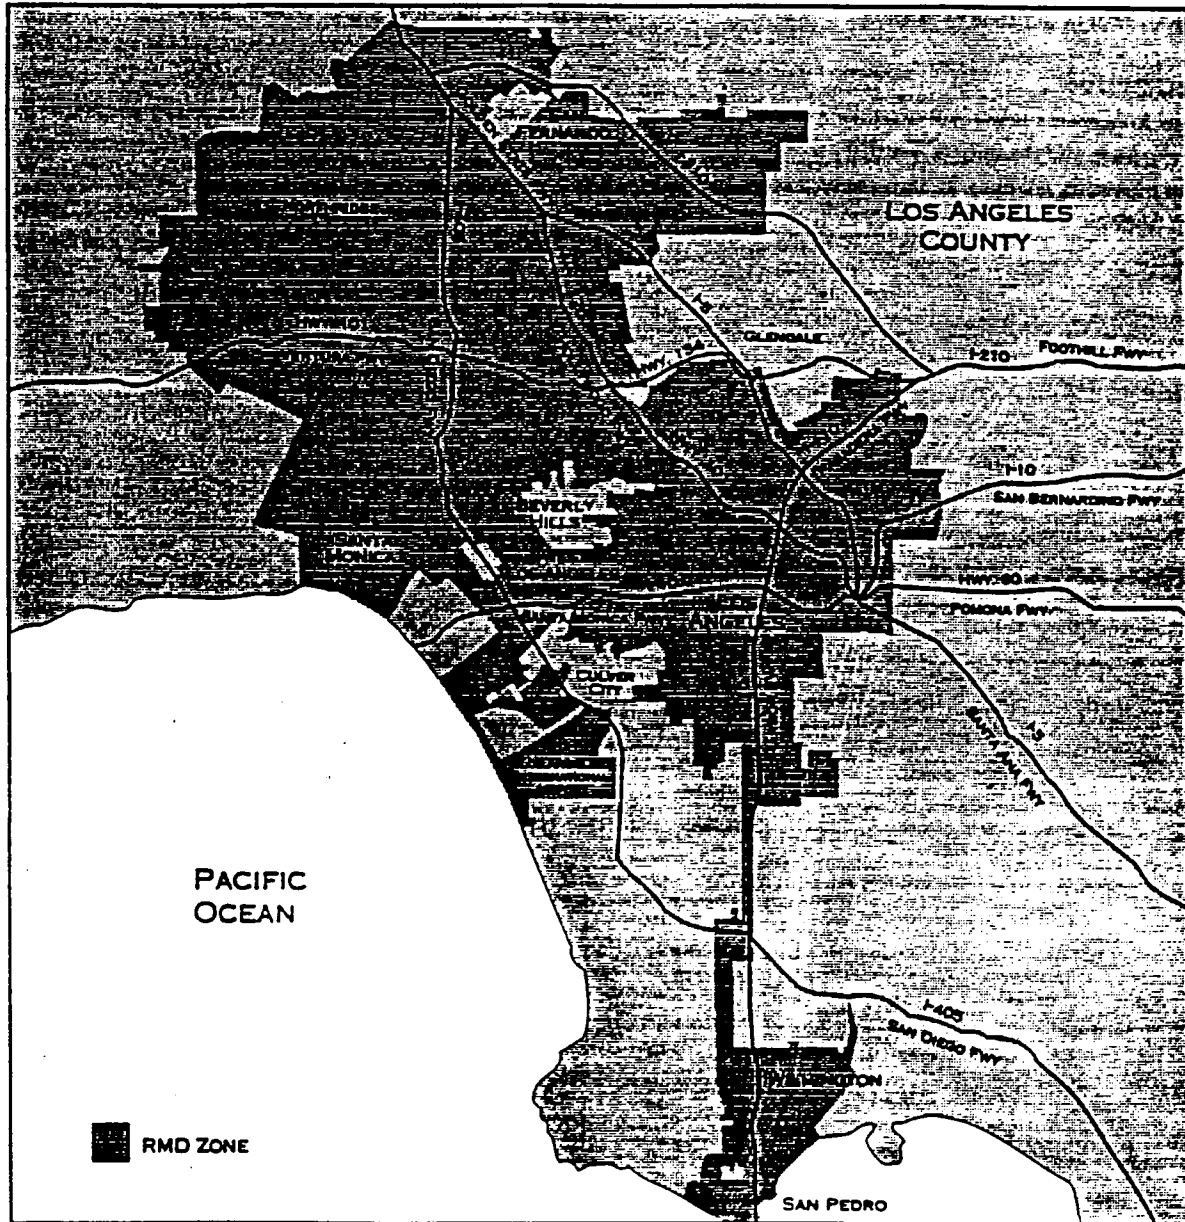

The various municipalities offer different incentives to attract business development, including permit assistance and a one-stop permit process, business and technical assistance, and reductions in local fees. Some areas are in the Los Angeles Revitalization Zone and, as such, participate in the business incentives offered by LARZ.

## FEEDSTOCK ANALYSIS IN TONS PER YEAR

MATERIAL	1992		1995		2000	
	DIVERSION	GENERATION	DIVERSION	GENERATION	DIVERSION	GENERATION
Paper	32,257	172,324	38,944	175,352	50,719	173,461

Metals	9,302	37,699	9,430	38,802	11,789	41,439
Yard Waste	12,153	79,887	14,438	83,640	22,305	90,637
Organics	5,164	64,610	6,162	66,763	18,868	70,833
Totals:	68,188	411,955	78,852	426,063	116,093	442,201

# CITY OF LOS ANGELES RECYCLING MARKET DEVELOPMENT ZONE

## ZONE INFORMATION

The City of Los Angeles, with 3.5 million people, is California's largest city. The region generates 50 percent of the State's total waste, and has both the largest industrial base and retail market in the United States in terms of total employees, payroll, and number of establishments. The total economic output of the City of Los Angeles rivals all but the largest nations in the world. As such, it is a major manufacturing and transportation hub for the State and nation. The newly expanded Recycling Market Development Zone encompasses the entire City of Los Angeles.

## PROGRAM INFORMATION

California Recycling Market Development Zones are a program of the California Integrated Waste Management Board. The CIWMB offers low interest loans up to \$1 million, technical assistance on financing strategies, and assistance in marketing zones nationally and internationally. *For more information on this and other market development programs, contact the Board's Zone Assistance Branch at 916-255-2708.*

# CITY OF LOS ANGELES RECYCLING MARKET DEVELOPMENT ZONE

### TARGET MATERIALS

The City of Los Angeles is targeting all 35 materials for which it has waste disposal and diversion information, including the four materials targeted prior to the zone expansion.

### INFRASTRUCTURE

The City of Los Angeles is a major manufacturing and transportation hub for the State and the nation. The City is served by freeways, major highways, rail lines, an international airport, and the Port of Los Angeles.

### BUSINESS INCENTIVES

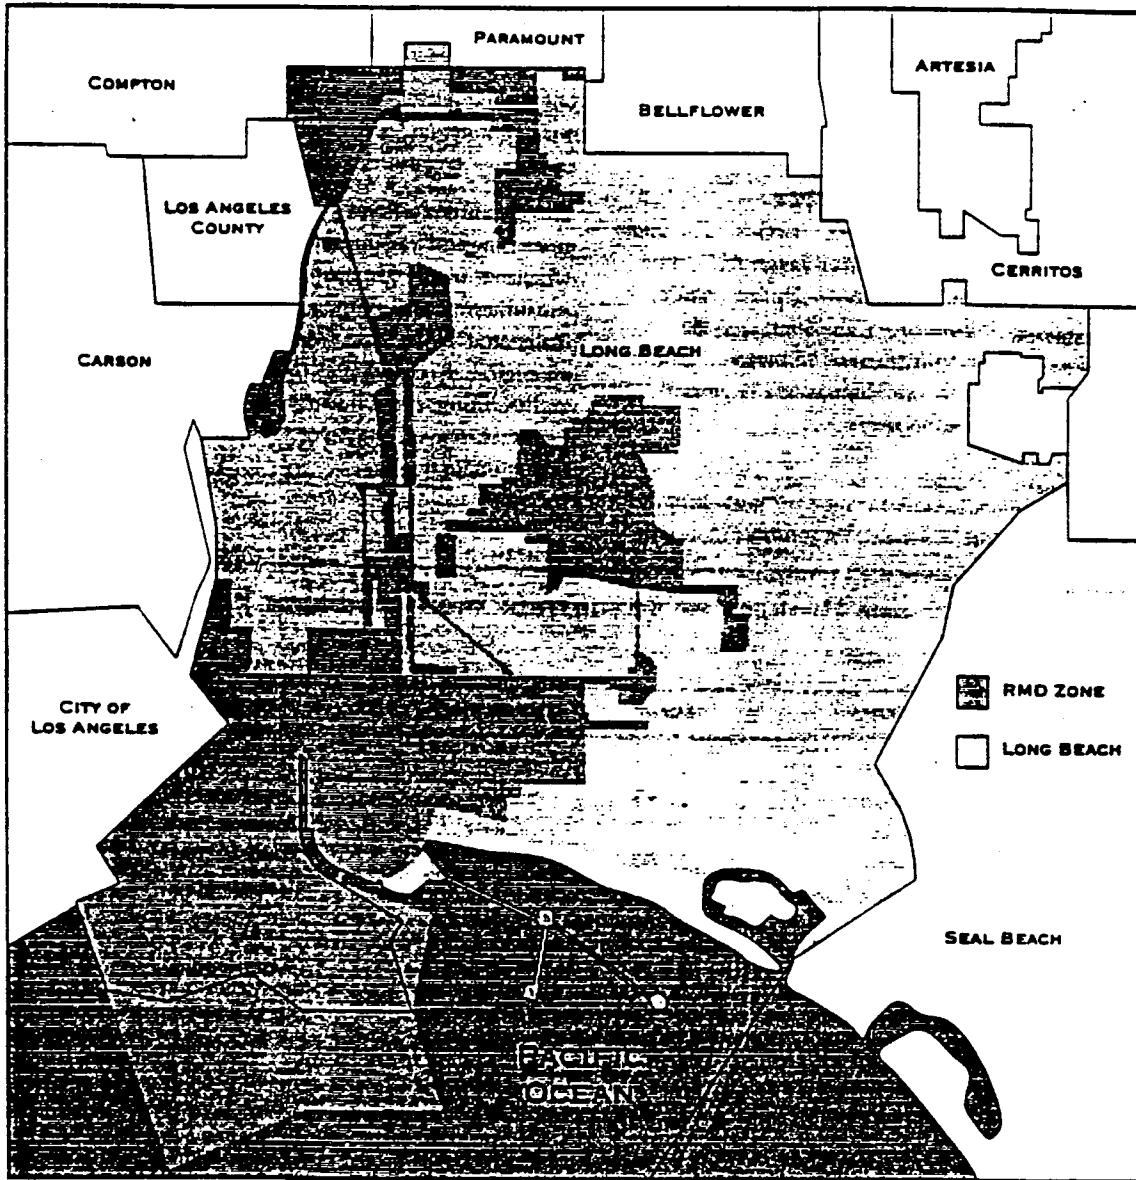

The City of Los Angeles offers a wide range of support mechanisms applicable to manufacturers that use secondary materials including tax incentives, low-interest financing, business assistance, and a 25 percent electricity discount for up to five years. Some of the financial incentives are: Industrial Development Bonds; Small Business Fund; Community Development Black Grant loan program; Community Financial Resource Center loans; Southern California Business Development Center loan program; technical assistance from Valley Economic Development Corporations; Enterprise Zone incentives; and Revitalization Zone incentives.

## FEEDSTOCK ANALYSIS IN TONS PER YEAR

MATERIALS	GENERATED	DIVERTED
Paper	1,814,384	682,524
Plastics	267,655	14,060
Glass	210,134	83,777
Metals	220,060	16,612
Yard-Waste	506,183	25,033

# CITY OF LONG BEACH RECYCLING MARKET DEVELOPMENT ZONE

## ZONE INFORMATION

Long Beach, with a population of 429,000, is the fifth largest city in California. The Port of Long Beach is the largest exporter of secondary materials on the West Coast. The Zone lies entirely within the City of Long Beach and encompasses virtually all industrial and commercially zoned property in the city.

## PROGRAM INFORMATION

California Recycling Market Development Zones are a program of the California Integrated Waste Management Board. For more information on this and other market development programs, contact the Board's Zone Assistance Branch at (916) 255-2708.

## CITY OF LONG BEACH RECYCLING MARKET DEVELOPMENT ZONE

### TARGET MATERIALS

Materials include paper, glass, metals and plastic. The goal of the Zone is to attract new companies, and expand operations at existing ones, so that the material collected from curbside collection programs will be used for manufacturing within the Zone.

### AVAILABLE AND PLANNED INFRASTRUCTURE AND PROPERTY

The area is served by five major freeways: Artesia (91), Long Beach (710), San Diego (405), San Gabriel River (605), and Terminal Island (SR47). Three rail lines—United Pacific, Southern Pacific and Santa Fe—serve the Zone and the deepwater port of Long Beach offers over 65 berths. There are 25 square miles of industrial and commercially zoned land, which includes 400 manufacturers.

### EMPLOYMENT

As a result of Long Beach's large labor pool of both skilled and unskilled workers, there is a need for generating moder-

ate to low-income jobs. All this combined with recent layoffs from the aerospace and defense industries provides Long Beach with an extensive pool of available workers.

### BUSINESS INCENTIVES

The CIWMB offers a 40 percent tax credit for businesses purchasing recycling equipment, low-interest loans up to \$1 million, technical assistance on financing strategies, and assistance in marketing zones nationally and internationally.

The incentives offered by the Zone include expedited permit processing and low-interest commercial and industrial loans, which can be used for facility construction, expansion, and rehabilitation and equipment purchase. As an Enterprise Zone designated by the State Department of Commerce, businesses are eligible to receive such incentives as sales and use tax credits, hiring credit, business expense deductions, net operating loss carryover, employee tax credits, and net interest deduction for lenders.

INTEGRATED WASTE MANAGEMENT BOARD

# CITY OF SANTA CLARITA RECYCLING MARKET DEVELOPMENT ZONE

## ZONE INFORMATION

The City of Santa Clarita Recycling Market Development Zone (RMDZ) is located in Los Angeles County in the center of the 256-square-mile Santa Clarita Valley. The City of Santa Clarita is bordered by Interstate 5 on the west, the Angeles National Forest to the north, east, and south, the Los Padres Forest to the northeast, the Santa Susana Mountains to the southwest, and the San Gabriel Mountains to the southeast. The zone encompasses the commercial and industrial areas within the 42-square-mile city boundary.

## PROGRAM INFORMATION

California Recycling Market Development Zones are a program of the California Integrated Waste Management Board (CIWMB). The CIWMB offers low interest loans up to \$1 million, technical assistance on financing strategies, and assistance in marketing zones nationally and internationally. For more information on this and other market development programs, contact the Board's Market Development and Zone Assistance Branch at (916) 255-2708.

## CITY OF SANTA CLARITA RECYCLING MARKET DEVELOPMENT ZONE

### TARGET MATERIALS

Targeted materials identified to provide continuous feedstock include wood, plastics, high grade/mixed paper, corrugated cardboard, and yard trimmings.

### INFRASTRUCTURE

Interstate 5 is the major thoroughfare connecting the City of Santa Clarita with Kern County to the north and Los Angeles County to the south. The city is connected to Antelope Valley and the City of Lancaster via rail and State Highways 14 and 175.

### INCENTIVES

The City of Santa Clarita offers fast-track permitting to facilitate business development. The Planning, Engineering, and Building Safety divisions of the city's Department of Community Development will also provide technical assistance and guidance through the CEQA process.

The city has adopted procurement policies that include a 10 percent price preference for recycled-content products, reusable products as alternatives to disposable products, and products designed to be recycled.

The College of the Canyons Employee Training Institute provides customized training and retraining programs for employees of businesses. The city will consider one year deferral of local development fees as an incentive to retain or attract business. The city's entitlement of Community Development Block Grant (CDBG) funds can be made available to businesses if the resulting economic development activity meets CDBG national objectives. Southern California Edison offers reduced utility rate incentives to new customers locating businesses within the RMDZs that meet Edison's "economic development rate" requirements.
