This exclusive franchise contract (CONTRACT) is made and entered into on _____, 2022, by and between COUNTY of Los Angeles Board of Supervisors, acting in their capacity as the governing body COUNTY of Los Angeles (COUNTY), and G.I. Industries dba Waste Management, a Utah Corporation, located at 800 Capitol Street, Suite 3000, Houston, Texas 77002, (hereinafter referred to as CONTRACTOR).

SECTION 0 - RECITALS:

Purpose. To limit the wear and tear on COUNTY streets, reduce pollution from Collection and Vehicle exhaust, increase customer service accountability, ensure compliance with Federal, State, and local laws, including Assembly Bills (AB) 341, 939, 1826, and Senate Bill (SB) 1383, by improving program implementation performance and reporting accuracy, and facilitate more efficient CONTRACT administration and enforcement by COUNTY staff.

Solid Waste Haul Permits. County of Los Angeles Department of Public Health issues permits to haulers for the hauling of Solid Waste with requirements to protect public health and safety, including frequency of Collection and Collection Vehicle maintenance. CONTRACTOR shall continue to obtain that permit and comply with all its provisions throughout the life of this CONTRACT; and

Mandatory Solid Waste Diversion. The State of California has found and declared that the amount of Solid Waste generated in California coupled with diminishing landfill space and potential adverse environmental impacts from land filling have created an urgent need for State of California and local agencies to enact and implement an aggressive, new integrated waste management program. Through enactment of AB 939, the State of California has directed agencies, such as COUNTY to Divert 50 percent of all Solid Waste through source reduction, recycling, and composting activities. The California Department of Resources Recycling and Recovery (CalRecycle) had granted COUNTY a timeline to achieve compliance with the AB 939 Diversion requirements to which COUNTY had met. Additionally, with the passage of Senate Bill 1383, COUNTY must comply with CalRecycle's requirements related to diversion of Organic materials such as Food Waste, Green Waste, and food-soiled paper, for the purpose of reducing short-lived climate pollutants such as methane and its impact on climate change. Non-compliance may subject the County to penalties and fines of up to \$10,000 per day. Continued compliance is based in part on executing and implementing this CONTRACT to secure cooperation with CONTRACTOR's AB 939 waste Diversion programs, record keeping, and reporting; and

County Zero Waste Plan. COUNTY Board of Supervisors adopted the Roadmap to a Sustainable Waste Management Future in 2014. It is a comprehensive plan for a waste free future and is a proactive approach to developing innovative policies for managing waste that further reduces COUNTY's reliance on landfills. It established the following intermediate and long-term disposal reduction targets: 80 percent Diversion from landfills by 2025, 90 percent Diversion from landfills by 2035, and at least 95 percent Diversion from landfills by 2045. The COUNTY updated the plan in 2021, referred to as the Zero Waste Plan; and

Municipal Solid Waste Discarded in Containers. The County has determined to provide for Municipal Solid Waste (MSW) Management Services in portions of Los Angeles County under the terms of this CONTRACT for reasons including the following:

- To enable businesses and residents located in the Service Area that discard Solid Waste in Dumpsters to receive quality MSW Management Services, and
- To provide COUNTY with programs, records, and reports that will help COUNTY comply with AB 939, AB 341, SB 1383, and other Laws.

Compliance with Law. CONTRACTOR shall perform Contract Services in accordance with all the Laws governing the safe Collection, transport, Recycling, and Disposal of Residential and Commercial Solid Waste, Including AB 939 and AB 341, SB 1383, Recovered Conservation and Recovery Act (RCRA), and Comprehensive Environmental Response Compensation and Liability Act (CERCLA).

CONTRACTOR / "Arranger". Under this Contract, COUNTY may exercise control over the Disposal or other disposition of the Solid Waste handled by the CONTRACTOR, commonly referred to as flow control. It may designate or determine the use of any given Solid Waste Facility. Although minimum scope of Contract Services, Service Specifications, and Service Standards are set forth in this CONTRACT, COUNTY has not, and by this CONTRACT does not, supervise Contract Services or assume title to Solid Waste; and

Competitive Procurement. COUNTY issued a Request for Proposals (RFP) or Invitation for Bids (IFB) to provide Contract Services under this CONTRACT. Private waste hauling companies submitted proposals or bids, including their proposed schedule of rates and charges. COUNTY selected the CONTRACTOR based, among other things, on CONTRACTOR's price proposal and work plan for Collection Services.

Compensation. The following describes the compensation allowed under this CONTRACT:

- Exhibit 7 provides for CONTRACTOR's compensation under Collection Services. Under this CONTRACT, the CONTRACTOR cannot charge its Customers more than the Customer Service Rates as stipulated in Attachment 7-2 Service Rates in Exhibit 7.
- Except as otherwise allowed under this CONTRACT, CONTRACTOR is not allowed to add any surcharges in addition to the fees that were entered on Form PW-2 and PW-3, Schedule of Prices. Any fuel, environmental, or other fees must be included in the original bid and may not be added later.

Franchise Authorization. PRC Section 40059 specifically authorizes COUNTY to prescribe the terms and conditions of Solid Waste management services, including:

- The nature, location, and level/extent of services;
- The frequency of Collection;
- The means of Collection and transportation;

- The Service Rates and fees; and
- Whether the services are to be provided by means of nonexclusive, partially exclusive, or wholly exclusive franchise, contract, license, permit or otherwise.

County Code Chapter 20.70 authorizes Director to require franchises in any part of the unincorporated territory of COUNTY that is not served by a Garbage Disposal District.

Franchise Development. COUNTY and representatives of the private hauling industry met many times to discuss the scope of services, service specifications, Service Standards, and other Performance Obligations and to address the industry's questions, comments, and concerns.

NOW, THEREFORE, THE PARTIES AGREE AS FOLLOWS:

This CONTRACT applies to all Contract Services, unless specifically indicated otherwise.

CONTRACTOR Obligations Applicable to all Exclusions from Service

CONTRACTOR shall report to the COUNTY and maintain a record of all Customers located within their Service Area that qualify for exclusion of services such as Customers that Self-Haul or self-manage Organic Waste. Upon determining a Customer is Self-Hauling or self-managing their Organic Waste, the CONTRACTOR shall provide a written notice to the Customer informing them that they must register with the COUNTY as a Customer that Self-Hauls or self-manages Organic Waste, as applicable. The CONTRACTOR shall provide the written notice that is developed by the COUNTY.

This applies to Manure-only Dumpsters for Residential Customers.

Construction and Demolition Debris must be handled in accordance with the requirements in County Code Chapter 20.87 and by a hauler with all appropriate Public Health permits. Customers have the option to select any properly permitted Construction and Demolition Debris waste hauler as long

as the selected waste hauler has an agreement with the COUNTY to haul Construction and Demolition Debris.

D. Fees to COUNTY

In consideration for exclusive franchise rights granted under this CONTRACT, CONTRACTOR shall pay COUNTY the Franchise Fee at the time and in the amount and manner established from time to time by COUNTY ordinance or resolution of the Board of Supervisors. CONTRACTOR shall not separately identify the Franchise Fee in correspondence with Customers, including in Terms and Conditions, bills, or invoices.

CONTRACTOR acknowledges the following:

- The franchise fee is a consideration for the County's direct and indirect costs and expenses associated with the franchise rights granted under the Agreement.
- The elimination of competition with private persons for Contract Services under this exclusive franchise has significant monetary value to CONTRACTOR, and the franchise fee is consideration for that exclusivity.
- The franchise fee is a cost of doing business, like capital, fuel and labor costs.
- Paying COUNTY the franchise fee is an obligation of CONTRACTOR and not an obligation of Customers.

E. Ownership of Solid Waste

This CONTRACT does not purport to grant CONTRACTOR ownership over Solid Waste. The right to possession or ownership of Solid Waste placed at the Set-Out Site for Collection, Organic Waste (including Green Waste and Food Waste), Recyclables, and E-waste, will be determined in accordance with existing law and is not affected by this CONTRACT. The COUNTY makes no representations or warranties with respect to content of Solid Waste, any Solid Waste Disposal characterization study, or projections by Solid Waste material type. COUNTY expressly disclaims any representations and warranties, either express or implied, as to the merchantability or condition of Solid Waste for any purpose.

CONTRACTOR will not make any claim against the COUNTY based on any estimates, statements or interpretations made by any officer, employee, agent, or consultant of the COUNTY in connection with the procurement of this CONTRACT, including the COUNTY's Request for Proposals, which differ from the actual under this Franchise.

The minimum (ping frequency of occurrence that GPS data is received from the Vehicle) shall be at least every one minute for fully automated Collection and at least every ten seconds for other Collection Vehicles, when within the Service Area.

CONTRACTOR may propose an alternate tracking system or device that results in similar results and data for Director approval.

Contractor shall add the Disposal/Diversion Expense and the Transportation/Labor Expense for a total cost of implementation. Rates charged to Customer(s) shall be the total cost of implementation divided by total cubic yards serviced of all Dumpsters and/or Carts within the single-pass option, and then multiplied by each Customer(s) cubic yard single-pass service for their individual rate.

For example:

- 2 large Customers are approved for single-pass service
 - Customer A will have 40 cubic yards service
 - Customer B will have 80 cubic yards service
- CONTRACTOR identifies total tonnage collected is 15 tons (via weigh tickets) and tip fee is \$110/ton = \$1650
- CONTRACTOR identified \$10/mile and total single-pass route is 20 miles = \$200
- Customer A rate = $\$1850/120\text{CY} \times 40\text{CY} = \616.66

12 months after an emergency, COUNTY will pay to the CONTRACTOR half the amount of any debt incurred as a result of Customers not paying their bills during an emergency. CONTRACTOR must submit documentation to the satisfaction of the Director demonstrating the amount of any such debt. Future Franchise Fees invoices will be adjusted by Director. For example, if the CONTRACTOR has \$100,000 of unpaid bills 12 months after an emergency, Director will reduce the Franchise Fee invoice by \$50,000. If CONTRACT will terminate prior to the 12 months, Director will consider an alternate timeline.

At any time after the Director has authorized the debt to be deducted from Franchise Fee and CONTRACTOR is able to recover additional payments from Customers, or former Customers, those recovered funds must be shared equally with COUNTY.

b. Franchise Fee Payment Extension

Director will consider adjusting Franchise Fees during an emergency, extending the deadline to pay an invoice.

C. Backup Service Plan

CONTRACTOR shall implement its Backup Service Plan within seven days of Director request if Customer's Solid Waste is not Collected at Customer's Set-Out Site, including uncontrollable circumstances. Examples of circumstances include CONTRACTOR's employees on strike or mudslides, wildfires, or earthquakes that cause blocked or damaged roads. In the event there is a protracted service disruption due to any cause, CONTRACTOR will institute proactive actions to sustain Solid Waste Collection Services. Since Customers are expecting services that CONTRACTOR is not providing, CONTRACTOR shall propose the appropriate services below for Director approval and must not charge Customer or COUNTY for providing these services, unless noted below.

1. Provide Conveniently Located Dumpsters or Roll-off Containers

CONTRACTOR will place 3 or 4-yard Dumpsters and/or Roll-off Containers throughout the community in key locations approved by Director.

2. Offer Self-hauling of Solid Waste to a Facility

CONTRACTOR will use Reasonable Business Efforts to make arrangements with the Solid Waste Disposal Facility normally used by CONTRACTOR for this Contract to allow each Occupant to direct haul and dispose of their Solid Waste, 6 days per week. The facility shall only charge the Customer for Disposal costs for quantities exceeding 100 pounds and there shall be no minimum quantities.

Additionally, if Director determines the distance to the CONTRACTOR's usual facility is too far from Occupants, CONTRACTOR will arrange for a local facility to allow each Occupant to drop-off the Solid Waste.

3. Inform Customers of Temporary Procedures

CONTRACTOR will use Reasonable Business Efforts to inform Customers and Occupants of the above service and Disposal options. CONTRACTOR will provide Customers and Occupants with information on where and how to dispose of the Occupant's Solid Waste by the following means:

- A recording on its customer service line.
- Arrange for the broadcast of COUNTY's 30-second Public Service Announcement video on local cable access channels with CONTRACTOR to customize it to the situation, such as having text appear on the screen announcing date, times, and addresses.
- Contact local print media and produce a press release.
- Contact Customers and Occupants via phone, e-mail, or text messages.

4. Credit Policy for Missed Contract Services

a. Missed Curbside Collection

Since Occupant is expecting a Collection Service not provided, CONTRACTOR shall automatically credit Customer for each missed Collection. For example, if a strike disrupts 2 weeks of the 13 Collections in a quarter, CONTRACTOR would credit Customer 2/13 of that quarter's fee toward the next quarter's fee.

b. Other Customer Services

When CONTRACTOR is unable to offer Collection Services other than curbside Collection, such as Bulky Item Collection, Community Meetings, or other required services, CONTRACTOR shall provide evidence of cost associated with those services and offer alternate services acceptable to Director.

5. Provide Replacement Drivers and Security

CONTRACTOR shall use Reasonable Business Efforts to require all properly trained and licensed employees to operate Collection Vehicles to maintain core Disposal and Diversion services. As described in the above paragraphs, CONTRACTOR shall be properly staffed to provide drop-off services for each Occupant. In addition to CONTRACTOR staff, CONTRACTOR shall use drivers or Vehicles from other operations and other waste haulers.

Finally, in cases of a strike, CONTRACTOR shall work closely with a private security firm to guarantee a safe and consistent operation.

6. Identify Customers Requiring Priority Service

CONTRACTOR shall contact the elderly and disabled Occupants and shall use Reasonable Business Efforts to Collect putrescible Solid Waste from their residence.

D. Use of Goods, Services and Property

1. Dumpsters and Cart Acquisition Contracts

CONTRACTOR acknowledges that COUNTY must have full use and possession of Dumpsters and Carts to secure its rights under this Contract, including both the following:

- Providing substitute service in accordance with its remedies under Part 3 of Exhibit 5 for Breach or default, and
- Purchasing Dumpsters and Carts upon termination of this Contract.

Therefore, if CONTRACTOR does not own Dumpsters and Carts outright without encumbrance, any Dumpster and Cart Acquisition Contract shall allow the Guarantor, COUNTY or COUNTY designee, to do all the following:

- Assume CONTRACTOR's obligations under the Dumpster and Cart Acquisition Contract,
- Take use and possession of the Dumpsters and Carts, and
- Obtain the benefits of any outstanding Cart warranties.

“Dumpsters and Cart Acquisition Contract” means an instrument establishing a security interest in the Dumpsters and Carts or that otherwise encumbers or limits CONTRACTOR's interest in Dumpsters and Carts, including any of the following:

- Lease or lease-purchase agreement,
- Installment sales or other financing contract, or
- Note or other loan documentation.

2. Inventory

CONTRACTOR shall store unused Dumpsters and Carts in a secure location. CONTRACTOR shall update its Dumpsters and Carts inventory at both following times:

- In each Monthly Report and Annual Report, and
- Within one week of COUNTY request

3. Insurance

If COUNTY or Customers have possession and use of Goods, Services and Property, CONTRACTOR shall execute whatever documentation its liability insurers require to ensure that COUNTY and Customers are protected and covered by CONTRACTOR's general and automobile policies, including requesting and executing endorsements to those policies. CONTRACTOR is not obligated to pay any additional cost of those endorsements unless COUNTY reimburses CONTRACTOR for those costs. COUNTY may pay for any endorsements, additional premiums or other costs. CONTRACTOR authorizes COUNTY to call and confer with CONTRACTOR's insurance broker to determine what, if any, documentation or actions are necessary to achieve protection satisfactory to COUNTY. Upon COUNTY REQUEST, CONTRACTOR shall direct its insurance broker to cooperate with COUNTY.

4. Vehicle Certification for FEMA

CONTRACTOR shall cooperate with COUNTY to certify all Vehicles to be used for emergency work. CONTRACTOR shall not use non-certified Vehicles unless approved by Director.

SECTION 12 - ENFORCEMENT OF CONTRACT

A. As Provided by Law

Either Party may avail itself of any remedy available under law.

B. COUNTY's Additional Remedies

Without limiting COUNTY's remedies otherwise available under this CONTRACT in law or equity, at its option, COUNTY may enforce a Breach in any or all the following ways:

- Execute alternative CONTRACTs for MSW Management Services in the event of CONTRACTOR Default
- Seek to obtain injunctive relief and/or damages
- Assess damages under item D of this Exhibit
- With respect to a CONTRACTOR Default under Part 3B3 of Exhibit 5 (Failure to Provide Insurance, Bonds), immediately withhold payments due CONTRACTOR
- Draw on Performance Assurance / Letter of Credit under Section 15

C. Injunctive Relief

CONTRACTOR acknowledges that COUNTY's remedy of damages for a Breach may be inadequate for reasons including the following:

- The urgency of timely, continuous, and high-quality Collection Services, including Collection, transportation, and/or transfer for Disposal of wastes which constitute a threat to public health;
- The long time and significant commitment of money and personnel and elected officials (both COUNTY staff and private consultants, including engineers, procurement counsel, citizens, public agency colleagues, and elected County officials) invested in this CONTRACT, including developing COUNTY's Option Analysis dated February 2001 and implementing its recommendations through numerous meetings of a Working Group comprised of Solid Waste industry representatives from small and large businesses, requesting and evaluating qualifications and proposals for this CONTRACT (including CONTRACTOR's), reviewing and commenting on documentation submitted by CONTRACTOR in conjunction with execution of this CONTRACT, and review of CONTRACTOR Documentation;
- The time and investment of personnel and elected officials described in the preceding paragraph to develop alternative Solid Waste services for the price provided under this CONTRACT, and to negotiate new contracts therefore; and

- COUNTY's reliance on CONTRACTOR's technical Solid Waste management expertise.

Consequently, COUNTY is entitled to all available equitable remedies, including injunctive relief.

D. Recovery of Damages

1. Compensatory

Subject to CONTRACTOR's opportunity to cure under Exhibit 5 Part 3, and mitigation of any damages by COUNTY, in the event that COUNTY seeks recovery of damages for a Breach, COUNTY may seek either compensatory damages or liquidated damages, as follows.

- Amounts equal to any Franchise Fees, liquidated damages, or other amounts that CONTRACTOR has previously paid to COUNTY but are subsequently recovered from COUNTY by a trustee in bankruptcy as preferential payments or otherwise;
- If COUNTY terminates this CONTRACT for a CONTRACTOR Default or in the event of Criminal Activity in accordance with Part 3D2c of Exhibit 5, costs incurred by COUNTY to provide or reprocur MSW Management Services in lieu of Collection Services;
- If COUNTY terminates this CONTRACT before expiration for a CONTRACTOR Default or in the event of Criminal Activity in accordance with Part 3D2c of Exhibit 5, costs of MSW Management Services provided or reprocured in lieu of Collection Services more than Customer Service Rates for the balance of the Term remaining if this CONTRACT had not been terminated; and
- In the event of CONTRACTOR Default under Part 3B3 of Exhibit 5 (Failure to Provide Insurance, Bond), in COUNTY's sole discretion, obtain damages resulting from that Default.

COUNTY may draw upon the performance bond, letter of credit, certificate of deposit, or other form of performance assurance provided by CONTRACTOR in accordance with Section 15 to pay compensatory damages.

For CONTRACTOR's misrepresentation regarding contingent fees in Attachment 5-8H, in addition to terminating this CONTRACT, COUNTY may recover from CONTRACTOR the full amount of the proscribed commission, percentage, brokerage, or contingent fee.

2. Liquidated Damages

COUNTY may seek liquidated damages listed in Attachment 12-D2.

The Parties have set these liquidated damages in recognition of the following circumstances existing at the time of the formation of this CONTRACT:

- a. COUNTY incurred considerable time and expense procuring this CONTRACT to secure an improved level of Collection quality and increased Customer and Occupant satisfaction. Therefore, consistent and reliable Collection Services are of the utmost importance to COUNTY and Customers and Occupants.
- b. COUNTY has considered and relied on CONTRACTOR's representations as to its quality-of-service commitment in entering into this CONTRACT, and CONTRACTOR'S Breach represents a loss of bargain to COUNTY. CONTRACTOR is experienced in providing services like those described in Collection Services.
- c. Quantified standards of performance are necessary and appropriate to ensure quality, consistent, and reliable Collection, and if CONTRACTOR fails to meet its Performance Obligations, COUNTY will suffer damages (including its Customers and Occupants' inconvenience; anxiety, frustration, potential political pressure, criticism, and complaint by Customers and Occupants; lost Supervisors and staff time; deprivation of the benefits of this CONTRACT and loss of bargain) in subjective ways and in varying degrees of intensity that are incapable of measurement in precise monetary terms, and that it is and will be impracticable and extremely difficult to ascertain and determine the value thereof. It would be difficult for COUNTY to prove its loss resulting from CONTRACTOR's Breaches and nonperformance or untimely, negligent, or inadequate performance of County Services.
- d. The CONTRACT contains a reasonable statement of Collection Services in order that the Parties will realize their expectations. COUNTY expects that CONTRACTOR shall perform Collection Services with due care in a workmanlike, competent, timely, and cost-efficient manner. CONTRACTOR expects to realize a profit by performing Collection Services in accordance with the terms and conditions of the CONTRACT for County Service Fees.
- e. In addition, in the event of Breach or CONTRACTOR Default, urgency of protecting public health and safety may necessitate that COUNTY enter into emergency or short-term arrangements for services without competitive procurement at prices substantially

greater than under this CONTRACT, and the monetary loss resulting there from is impossible to precisely quantify. Time is of the essence.

- f. The CONTRACTOR accepts COUNTY's assessment of liquidated damages for certain Breaches as part of the consideration CONTRACTOR offers to COUNTY for the award of this CONTRACT to CONTRACTOR.
- g. Lastly, termination of this CONTRACT for CONTRACTOR Default and other remedies provided in this CONTRACT are, at best, a means of future correction and not remedies that make COUNTY whole for past Breaches and CONTRACTOR Defaults.

Therefore, the Parties agree that the liquidated damages listed in Exhibit 12-D2 represent a reasonable estimate and fair approximation of the amount of damages COUNTY would incur as a consequence of CONTRACTOR's Breach corresponding to each item of specified liquidated damages, considering all the circumstances existing on the date of this CONTRACT, including the relationship of the sums to the range of harm to COUNTY that reasonably could be anticipated and anticipation that proof of actual damages would be costly or inconvenient.

In signing this CONTRACT, each Party specifically confirms the following:

- The accuracy of the statements made above, and
- The fact that each Party had many opportunities to consult with legal counsel and obtain an explanation of this liquidated damage provision at the time that this CONTRACT was made.

E. County's Reimbursement Costs

CONTRACTOR shall pay COUNTY promptly upon request, COUNTY's Reimbursement Costs of conducting a nonroutine investigation of any alleged Breach, when appropriate in judgment of Director. CONTRACTOR shall reimburse COUNTY for COUNTY's Reimbursement Costs incurred because of CONTRACTOR's Breach, including failure to maintain insurance.

F. Waiver

No waiver by COUNTY of any Breach of any provision of this CONTRACT constitutes a waiver of any other Breach of that provision. Failure of COUNTY to enforce at any time, or from time to time, any provision of this CONTRACT will not be construed as a waiver thereof. The rights and remedies set forth in this item F are exclusive and are in addition to any other rights and remedies provided by law or under this CONTRACT.

SECTION 13 - UNPERMITTED WASTE SCREENING AND REPORTING

A. Protocol

CONTRACTOR shall develop and implement the Unpermitted Waste Screening Protocol in compliance with Applicable Law and including the following provisions:

- Ongoing employee training in identification, safety and notification procedures, including leaving Non-Collection Notices, when safe;
- Means of driver inspection, such as visual inspection during tipping of Carts into Vehicles;
- Immediate driver response, such as load segregation;
- Driver notification, such as calling CONTRACTOR's dispatcher or field supervisor;
- Notification of appropriate local agency or department;
- Appropriate action, such as segregation and containerization for manifesting and transport for Disposal in accordance with Applicable Law or securing services of permitted handling and transport company;
- Compliance with Applicable Law, including regulations of the United States Department of Transportation (DOT) (Title 49 CFR) and of the United States Environmental Protection Agency (Title 40 CFR); and
- Labels on Containers, described in item D of this Section.

B. Prohibition on Collection

CONTRACTOR shall not Collect any Unpermitted Waste that it finds in Refuse, Recyclables, or Organic Waste unless it is licensed under Applicable Law. If CONTRACTOR finds Unpermitted Waste it shall notify all Persons as required by Applicable Law.

C. Notice to Director

If CONTRACTOR sees anything that it reasonably believes or suspects may be Unpermitted Waste on any public property in COUNTY, CONTRACTOR shall immediately notify Director and all Persons in compliance with Applicable Law. Public property includes storm drains, streets, and other public rights of way.

D. Labels

CONTRACTOR shall conspicuously label Containers with embossing or other secure means prohibiting Customers from discarding Unpermitted Waste. CONTRACTOR shall submit the label and text for Director approval prior to placing any purchase order for Containers. Item C3 of Exhibit 3A1 contains additional Container requirements.

SECTION 14 - EXECUTION OF CONTRACT**A. Execution in Counterparts**

This CONTRACT, including dated signatures on amended Exhibits and attachments to those Exhibits, may be signed by the parties hereto in any number of original separate counterparts, including both counterparts that are executed on paper and counterparts that are in the form of electronic signatures. Electronic signatures include facsimile or e-mail electronic signatures. Each executed counterpart shall be deemed an original. All counterparts, taken together, constitute the executed CONTRACT.

The parties hereby acknowledge and agree that electronic records and electronic signatures, as well as facsimile signatures, used in connection with the execution of this CONTRACT and electronic signatures, facsimile signatures or signatures transmitted by electronic mail in so-called pdf format shall be legal and binding and shall have the same full force and effect as if a paper original of this CONTRACT had been delivered had been signed using a handwritten signature. CONTRACTOR and COUNTY (i) agree that an electronic signature, whether digital or encrypted, of a party to this CONTRACT is intended to authenticate this writing and to have the same force and effect as a manual signature, (ii) intend to be bound by the signatures (whether original, faxed or electronic) on any document sent or delivered by facsimile or, electronic mail, or other electronic means, (iii) are aware that the other party will rely on such signatures, and (iv) hereby waive any defenses to the enforcement of the terms of this CONTRACT based on the foregoing forms of signature. If this CONTRACT has been executed by electronic signature, all parties executing this document are expressly consenting under the United States Federal Electronic Signatures in Global and National Commerce Act of 2000 ("E-SIGN") and California Uniform Electronic Transactions Act ("UETA")(Cal. Civ. Code § 1633.1, et seq.), that a signature by fax, e-mail or other electronic means shall constitute an Electronic Signature to an Electronic Record under both E-SIGN and UETA with respect to this specific transaction.

B. Authority to Execute

COUNTY warrants that the individual signing this CONTRACT has been duly authorized by COUNTY to sign this CONTRACT on behalf of COUNTY and has the full right, power, and authority to bind COUNTY to this CONTRACT. CONTRACTOR warrants that the individual signing this CONTRACT below has been duly authorized by CONTRACTOR to sign this CONTRACT on behalf of CONTRACTOR and has the full right, power, and authority to bind CONTRACTOR to this CONTRACT.

SECTION 15 - PERFORMANCE ASSURANCE

A. Performance Bonds, Other Security

CONTRACTOR shall secure and maintain throughout the Term and until CONTRACTOR has complied with all its obligations that survive the Expiration Date a faithful performance bond, approved by COUNTY. The performance bond must be in a form satisfactory to COUNTY or, at COUNTY's sole and absolute discretion, any alternative security acceptable to Director, including cash, certified check payable to COUNTY, certificate of deposit, or letter of credit (together, "**Performance Assurance**"), in the amount not less than \$50,000.

The Performance Assurance secures full and timely satisfaction of Performance Obligations for Collection Services.

CONTRACTOR shall provide a Performance Assurance in the amount listed in the table below for the period beginning on the Execution Date and ending on the last day of the first Contract Year.

Service Area	Amount of Performance Assurance
Westside	\$50,000

Beginning on the first day of the next Contract Year, and in all subsequent Contract Years, that amount must be not less than the sum of:

- 15 percent of CONTRACTOR's Gross Receipts from Collection Services minus any Franchise Fees for the prior Contract Year;
- + 110 percent of any Franchise Fees paid by CONTRACTOR during the first six months of the prior Contract Year;
- + 110 percent of any liquidated damages assessed CONTRACTOR by COUNTY during the first six months of the prior Contract Year; and
- + Up to \$50,000, at the discretion of Director;
- = **SUM OF PERFORMANCE ASSURANCE (\$50,000 MINIMUM)**

A performance bond must be payable to COUNTY and executed by a corporate surety licensed to transact business (admitted) as a surety in the State of California. The corporate surety must have an A.M. Best Rating of not less than A:VII, unless otherwise approved by Director. The form of performance bond may not allow the bond surety to substitute another Person to perform Collection Services but must provide for payment of moneys to COUNTY to; (1) secure substitute Collection Services; (2) remedy damages incurred by COUNTY, including reasonable expenses, attorney's fees, and liquidated and compensatory damages; (3) ensure satisfaction of all Performance Obligations, including payment of Franchise Fees; and, (4) repay any money recovered from COUNTY in any bankruptcy or similar proceedings relating to CONTRACTOR. The

performance bond must be conditioned on faithful performance by CONTRACTOR of all the terms and conditions of this CONTRACT, including payment of Franchise Fees and any liquidated damages.

Each Performance Assurance must be renewed to provide for continuing liability in the above amount notwithstanding any payment or recovery thereon. At least 30 days prior to the Execution Date and 30 days prior to any renewal of the Performance Assurance, CONTRACTOR shall deliver the Performance Assurance to Director.

Director may verify the accuracy and authenticity of the Performance Assurance submitted.

B. Further Assurances

In addition to all other rights and remedies it may have, within five days of County request CONTRACTOR will provide reasonable assurances that it can timely and fully meet its obligations under this CONTRACT in any or all of in the following events:

1. Labor

CONTRACTOR is the subject of any labor unrest (including work stoppage or slowdown, sick-out, picketing and other concerted job actions).

2. Tipping Fees

CONTRACTOR does not pay an identified Solid Waste Facility for services.

3. Employee Wages

4. County

CONTRACTOR does not pay COUNTY any amount that COUNTY has charged CONTRACTOR.

5. Meet Obligation

In the COUNTY's judgment, the occurrence of either of the following events jeopardizes CONTRACTOR's ability to timely and fully meet its obligations under this CONTRACT:

- CONTRACTOR does not regularly pay its bills when due, or
- The entering of any judgment against CONTRACTOR or any Guarantor with respect to Criminal Conduct by CONTRACTOR or Guarantor.

“Assurance of Performance” means any or all of the following actions, as COUNTY requests:

- Reduction or elimination of insurance deductibles or self-insured retention,
- Providing or increasing the size of a letter of credit, or
- Providing an additional performance bond, certificate of deposit or other instrument.

CONTRACTOR shall assist COUNTY with Customer waiver/exemption requests as specified in Section J2.

CONTRACTOR must provide Collection Services to Premises of the following:

1. County Commercial Franchise Customers

a. *Commercial Businesses*

The CONTRACTOR shall provide such services to all Commercial Businesses regardless of whether the Customer utilizes Cart and/or Dumpsters for Collection. However, the Director in its sole discretion may allow the Authorized Residential Franchise Waste Hauler to service a Commercial Business Customer with all Carts if Director finds such service would be more efficient or cost-effective.

b. *Multifamily Premises (5 Units or More)*

CONTRACTOR shall provide such services to Multifamily Premises (5 Units or More) including mobile home parks that have Carts service per individual unit and no Dumpsters. The Authorized Residential Franchise Waste Hauler shall be the default service provider for Multifamily Premises (4 Units or Less).

Additionally, Customers who are being serviced under the Residential Franchise contract (Single Family and Multifamily of 4 Units or Less) that have Carts for Collection Services but only utilize Dumpsters for Manure Collection only, can receive Manure Collection Services by either the Authorized Commercial Franchise Waste Hauler or the Authorized Residential Franchise Waste Hauler. This provision also applies to Residential Premises operating a business on the property.

2. Collection Methods

The Minimum Default Collection Service includes a minimum base rate for the level of service for Refuse which is agreed upon by the Customer and CONTRACTOR and shall be charged accordingly to the rates set forth in the Service Rates Schedule in Attachment 7-2 of Exhibit 7. While the first Food Waste Container is to be provided at no additional charge, CONTRACTOR must allow the purchase of additional Containers for the fee indicated in Exhibit 7, Attachment 7-2, Extra Services Fees. CONTRACTOR may request approval from the Director to not provide in-home Food Waste Containers if selected Collection Method does not include Source Separating Organic Waste.

CONTRACTOR may also comply with this Section by providing a Container or Containers to its Customers that are split or divided into segregated sections, instead of an entire Container, as long as the lids of the separate sections of a split Container comply with the Container color requirements and material limitations specified in Section 18984 of SB 1383.

CONTRACTOR may charge Customer the amount provided in Attachment 7-2, Extra Service Fees of Exhibit 7.

CONTRACTOR shall inform Customer of the fee prior to the exchange and give Customer the option of waiting for the exchange until the next Calendar Year to avoid the charge unless waiting will have a significant impact on their Recycling or Organic Waste Diversion.

d. *Removal of Carts or Dumpsters Stored in the Public Right-of-Way*

The storage of Solid Waste is not allowed within the public right-of-way. Containers left out after Collection may be an eyesore for the community, a threat to public health, and a nuisance to traffic.

(1) Third-Party Containers

a. Identification/Reporting

CONTRACTOR shall repair or replace damaged Containers that it observes are damaged when providing service and upon request from Director, Customer, or Occupant.

b. Fee

Customer for the actual cost of repair or replacement of Containers when:

- A Container is missing but Customers or Occupants do not report the theft of the Container to the police.

c. *Repair or Replacement*

CONTRACTOR shall repair or replace damaged Containers within two Service Days after CONTRACTOR observes the damaged Container or when requested by Director, Customer or Occupant. "Damage" includes missing or inoperable lids.

9. Inventory

CONTRACTOR shall maintain an adequate inventory of Containers and lids of each type and capacity to provide Customers and Occupants replacements within two Service Days of request. When determining adequacy, CONTRACTOR shall consider the nature of Set-Out Sites. For example, Carts and/or Dumpsters placed on unlevel Set-Out Sites, such as in mountainous areas without curb and gutter, may be damaged more frequently than those placed in level Set-Out Sites. Therefore, CONTRACTOR must maintain a larger inventory of Carts and Dumpsters for those areas.

CONTRACTOR shall notify Director if inventory is inadequate, including an explanation of why inventory dropped below the two-Service Day standard as mentioned in subsection 8c of this Section. For example, CONTRACTOR might submit its timely order for Containers but receive them later than manufacturer originally represented due to manufacturer's backlog or other delay.

10. Container and/or Cart Lids Purchase Option

Upon expiration of this Collection CONTRACT, COUNTY may purchase some or all entire Containers' bodies with lids, or only Cart lids, or both, at a price equal to the then book value of amortized on a straight-line basis over ten years beginning on the Execution Date. COUNTY's option includes both Containers and Cart lids then used by Customers and any in storage or in inventory as indicated in subsection 9. CONTRACTOR shall transfer or assign to COUNTY all rights necessary to give COUNTY ownership, possession and use of Containers and lids COUNTY is purchasing,

including under any Containers and lid acquisition agreement, installment sale agreement, or lease.

11. Manure Service

CONTRACTOR shall offer Manure Collection Services to Customers and shall bill the Customer as provided in the Attachment 7-2, Extra Services Fees of Exhibit 7.

If a Customer has landscaping service, separate Green Waste only Collection Container, or generates no Green Waste then such Green Waste material does not have to be included in the Organic Waste Container.

14. Alternative Container Sizes

If a Customer or Occupant requests alternate Container sizes, CONTRACTOR shall provide the type of Containers described in Contractor Documentation in Exhibit 17. For the purposes of this CONTRACT, Carts with a capacity between 95 and 100 gallons are equivalent to 0.5 cubic yards. CONTRACTOR shall provide the number of alternative Containers having the same aggregate capacity as CONTRACTOR would have provided to that Occupant. For example:

- Three 32-gallon Carts instead of one 96-gallon Cart.
- One 64-gallon Cart and one 32-gallon Cart instead of one 96-gallon Cart.

D. Solid Waste Transportation, Processing, Diversion, and Disposal

1. CONTRACTOR-Designated Solid Waste Facilities

CONTRACTOR shall transport Solid Waste only to the Solid Waste Facility or Facilities that CONTRACTOR has designated in Contractor

Documentation in Exhibit 17, for Processing, Diversion, or Disposal or those facilities as directed by Director in subsection 6 below.

The CONTRACTOR shall select Solid Waste Facilities solely in its discretion, including transfer stations and material recovery facilities, composting and Disposal facilities. CONTRACTOR shall notify COUNTY of the Solid Waste Facilities that CONTRACTOR chooses for each respective type of Solid Waste (Refuse, Recyclables, Organic Waste, Manure, Bulky Items, and E-waste). For Construction and Demolition Debris, CONTRACTOR shall only utilize facilities approved by the COUNTY for Processing Construction and Demolition (C&D) Debris. All facilities utilized by the CONTRACTOR must be approved by the COUNTY as designated in Contractor Documentation in Exhibit 17. Additionally, CONTRACTOR shall allow the County at its own expense to conduct a third-party verification for Recyclables Recovery Rate of Solid Waste Facilities and materials recovery facilities utilized. The County will provide the CONTRACTOR a one week notice with scheduling options for CONTRACTOR to select for what is best for their operation. COUNTY may utilize CalRecycle's facility diversion audits if available in efforts to meet this requirement.

CONTRACTOR may designate a Solid Waste Facility or Facilities that utilizes Conversion Technology or provides feedstock to Conversion Technology facilities. Prior to any change in designated facilities, CONTRACTOR must provide Notification to Director for approval of change. Failure to receive approval from Director will result in rate adjustments being calculated based on the less expensive of the existing and previous facility. Director will review information such as fees, distance, Recycling rates, ability to Recycle Solid Waste.

If CONTRACTOR requests to take Solid Waste to a facility that charges more, Director may approve such requests without authorizing the CONTRACTOR to pass the increased cost to the Customer. At the Director's discretion, some or all the increased costs may be passed to the Customer under special circumstances such as changing Organic Waste Diversion from a cheaper but poorly managed composting facility to a highly efficient and closer anaerobic digestion facility that is more expensive.

2. Backup Disposal Facility

a. COUNTY Direction

If the Disposal facility is not accepting permitted waste, upon COUNTY approval CONTRACTOR will transport permitted waste to a backup Disposal facility identified by the COUNTY.

b. Transport Fee

The COUNTY will pay the CONTRACTOR the following transport fee for transporting permitted waste from the transfer station to the backup disposal facility for longer haul or CONTRACTOR shall decrease rates for shorter haul as described below:

(1) Transport Fee Schedule lists both of the following amounts:

- (a) Price for transporting one ton of waste for one mile (“\$X.XX / ton-mile”) as listed in Exhibit 7, Attachment 7-2, Schedule of Prices, and
- (b) The number of round-trip miles from the transport station to the Disposal facility (“# primary Disposal facility-miles”).

The number of miles is calculated on the shortest route on which CONTRACTOR can transport waste, for example, roads that support the weight of the loaded waste transport trucks.

- (c) **Longer Haul.** If the backup Disposal Facility is farther from the transfer station than is the primary Disposal facility, then the transport service fee will be increased as follows to reflect the additional transport miles:

\$X.XX [INSERT FROM PROPOSAL] transported tons
X increased miles = \$X.XX.

- (d) **Shorter Haul.** If the back-up primary Disposal Facility is closer to the transfer Station than is the primary Disposal facility, then the transport service fee will be decreased to reflect the reduced transport miles as follows:

\$X.XX [INSERT FROM PROPOSAL] transported tons
X decreased miles = \$X.XX.

3. Facility Standards

Director reserves the right to review documentation and inspect facilities in the future and not allow use of facilities that do not meet Director’s satisfaction.

4. Processing Facility for E-Waste

CONTRACTOR shall utilize a Processing Facility to Recycle and dismantle all E-waste that it Collects into materials that meet commercial standards for marketable commodities such as metals, plastic, and glass in a facility that operates within the United States. CONTRACTOR shall not ship or utilize a Processing Facility that ships any other E-waste or E-waste components outside the United States. CONTRACTOR shall demonstrate compliance with this subsection in the form of an affidavit from the proposed E-waste recycler.

5. Processing Facility Temporary Equipment or Operational Failure Waiver

a. Notification to the County

The CONTRACTOR, or their Subcontractor (such as a Facility operator), shall notify the COUNTY immediately of any unforeseen operational restrictions that have been imposed upon the designated Solid Waste Facility by a regulatory agency or any unforeseen equipment or operational failure that will temporarily prevent the designated Solid Waste Facility from Processing and recovering different types of Solid Waste such as Recyclables, Organic Waste and Mixed Waste.

The CONTRACTOR or Subcontractor shall notify the COUNTY immediately from the time of the incident. The notification shall include the following: (i) name of designated Solid Waste Facility; (ii) the Recycling and Disposal Reporting System Number of the designated Solid Waste Facility; (iii) date the designated Solid Waste Facility became unable to Process Recyclables, Organic Waste and Mixed Waste; (iv) description of the operational restrictions that have been imposed upon the designated Solid Waste Facility by a regulatory agency or unforeseen equipment failure or operational restriction that occurred; (v) the period of time the CONTRACTOR anticipates the temporary inability of the designated Solid Waste Facility to Process Recyclables, Organic Waste, or Mixed Waste; (vi) CONTRACTOR's proposed action plan to deliver materials to an Alternative Solid Waste Facility for Processing (Contractor Documentation in Exhibit 17) or CONTRACTOR's request for a waiver to deliver Recyclable, Organic Waste, or Mixed Waste to the designated Solid Waste Disposal Facility.

b. Use of Alternative Facility or Waiver for Disposal of Materials

Upon notification by CONTRACTOR or Subcontractor of the designated Solid Waste Facility's inability to Process materials, COUNTY shall evaluate the notification and determine if County shall require CONTRACTOR to use an alternative Solid Waste Facility or allow the CONTRACTOR to Transport Recyclables, Organic Waste, or Mixed Waste to the designated Solid Waste Facility for Disposal on a temporary basis for a time period specified by the COUNTY. Upon COUNTY's decision, the COUNTY shall notify the CONTRACTOR of its requirement to use an alternative Solid Waste Facility for Processing or to use the designated Solid Waste Facility for Disposal, and the period of time that the COUNTY will allow Recyclables, Organic Waste, or Mixed Waste to be redirected to the alternative Solid Waste Facility or designated Solid Waste Disposal Facility.

Pursuant to 14 CCR Section 18984.13, the approved Disposal period shall not exceed ninety (90) days from the date the Designated Facility's Processing restriction or failure commenced. In such case, the CONTRACTOR must receive written permission from the COUNTY prior to depositing any Discarded material in a landfill.

CONTRACTOR shall maintain a record of any designated Solid Waste Facility incidents and report this information to the COUNTY in accordance with Section 10 Reports.

6. County Designation of Facility

Director reserves the right to direct Solid Waste to a specific site or facility. COUNTY will compensate CONTRACTOR for any direct costs, if any, such as increased tipping fees and transportation costs which CONTRACTOR incurs as a result of the delivery of materials to a COUNTY-designated Solid Waste Facility instead of to the Solid Waste Facility selected by CONTRACTOR. CONTRACTOR must submit verifiable evidence demonstrating increased costs.

If CONTRACTOR had been using a CONTRACTOR owned facility before being redirected to a different facility, Director will not compensate CONTRACTOR for any lost profits incurred by the CONTRACTOR as a result of being redirected to a different facility. COUNTY will not be under any obligation to disclose confidential information regarding the offenses other than those required by law.

Disqualification of any member of CONTRACTOR's staff pursuant to this paragraph shall not relieve CONTRACTOR of its obligation to complete all work in accordance with the terms and conditions of this CONTRACT.

R. Method of Payment and Required Information

The County may, at its sole discretion, determine the most appropriate, efficient, secure, and timely form of payment for any amounts due for goods and/or services provided under a Contract with the County. Proposers/Contractors further agree that the default form of payment shall be EFT or direct deposit, unless an alternative method of payment is deemed appropriate by the A-C.

Upon Contract award and at the request of the A-C and/or Public Works, the Contractor shall provide the A-C with electronic banking and related information for the Contractor and/or any other payee that the Contractor designates to receive payment pursuant to this Contract. Such electronic banking and related information includes, but is not limited to: bank account number and routing number, legal business name, valid taxpayer identification number or TIN, a working e-mail address capable of receiving remittance advices and other payment related correspondence, and any other information that the A-C determines is reasonably necessary to process the payment and comply with all accounting, recordkeeping, and tax reporting requirements.

Any provision of law, grant, or funding agreement requiring a specific form or method of payment other than EFT or direct deposit shall supersede this requirement with respect to those payments. Upon Contract award or at any time during the duration of the Contract, a Contractor may submit a written request for an exemption to this requirement. Such request must be based on specific legal, business or operational needs and explain why the payment method designated by the A-C is not feasible and an alternative is necessary. The A-C, in consultation with Public Works, shall decide whether to approve exemption requests.

discrimination, harassment, retaliation and inappropriate conduct based on a protected characteristic, and which may violate the CPOE. The Contractor, its employees and Subcontractors acknowledge and certify receipt and understanding of the CPOE. Failure of the Contractor, its employees or its Subcontractors to uphold the County's expectations of a workplace free from harassment and discrimination, including inappropriate conduct based on a protected characteristic, may subject the Contractor to termination of contractual agreements as well as civil liability.

U. Contractor Independence

A Contractor or its subsidiary or Subcontractor (Contractor), is prohibited from submitting a bid or proposal in a County solicitation if the Contractor has provided advice or consultation for the solicitation. A Contractor is also prohibited from submitting a bid or proposal in a County solicitation if the Contractor has developed or prepared any of the solicitation materials on behalf of the County. A violation of this provision shall result in the disqualification of the Contractor from participation in the County solicitation or the termination or cancellation of any resultant County contract. This provision shall survive the expiration, or other termination of this CONTRACT.

V. Contractor Alert Reporting Database (CARD)

The County maintains databases that track/monitor Contractor performance history. Information entered into such databases may be used for a variety of purposes, including determining whether the County will exercise a contract term extension option.

W. Federally Funded Work

This provision will apply when federally funded or potentially federally funded work is needed by County. In accordance with Federal Executive Order 12549 and 12689 (Debarment and Suspension), individuals or entities that have been debarred by the Federal government may not receive work under this Contract as a Contractor or Subcontractor. Federal agencies to participate in federally funded projects. For your reference, a List of Debarred Contractors by U.S. Department of Labor's (DOL) Office of Federal Contract Compliance Programs (OFCCP) may be obtained by going to the following website: <https://www.sam.gov/portal/SAM/>.

If the Contractor is listed on the governmental exclusions in the System for Award Management (SAM) as a party excluded or ineligible by Federal agencies to participate in federally funded projects, then said Contractor will not be offered the work. The Contract Manager will notify the Contractor of their negative standing in the SAM. The Contract Manager will also notify the Contractor of their ineligibility to receive any federally funded work under this contract, until the Contractor is able to satisfactorily correct the issue. The Contractor shall notify the Contract Manager when the Contractor has corrected their negative standing in the SAM, and the Contractor is no longer listed on the governmental exclusions in the SAM.

If the Contractor is **not** listed on the governmental exclusions in the System for Award Management (SAM) as a party excluded or ineligible by Federal agencies to participate in federally funded projects, Public Works may offer said Contractor the federally funded work.

EXHIBIT 7 – Rate Adjustments

A. Service Rates Schedule

CONTRACTOR shall charge Service Rates (Customer Service Rates) in amounts less than or equal to the Service Rates set forth in the Service Rates Schedule in Attachment 7-2 of this Exhibit.

1. Time, Conditions, Changes

a. *Annual Adjustments*

(1) Annual CPI Calculation:

Beginning at least 6 months after the Commencement Date, Director will adjust the Service Rates each July 1 based on the percentage change in the average annual published CPI, for Trash and Garbage Collection (CUUR0000SEHG02), U.S. City average, as published by the United States Department of Labor, Bureau of Labor Statistics. The annual change is a comparison of the average monthly rate for the two previous Calendar Years.

A minimum of 6 months must elapse between Commencement Date and July 1 of the current year. The CPI component of the Service Rate will be the percent change, if any, between the following:

- The monthly average CPI during the 12-month period commencing March 1 of the previous year to the last day of February of the current year, and
- The monthly average CPI during the 12-month period commencing March 1 of the prior previous year to the last day of February of the previous year.

For example, a contract that started April 1, 2021, will not be eligible for a Rate Adjustment for CPI on July 1, 2021. On July 1, 2022, the Rate Adjustment would compare March 1, 2021 through February 28, 2022, to March 1, 2020 through February 28, 2021.

The index to be used is the Consumer Price Index for Trash and Garbage Collection (CUUR0000SEHG02), U.S. City average, as published by the United States Department of Labor, Bureau of Labor Statistics at <https://beta.bls.gov/dataViewer/view/timeseries/CUUR0000SEHG02>.

(1) Changes in Law

Change in CONTRACTOR's Direct Costs of providing Contract Services due to Changes in Law. Any adjustment in the Service Rate due to a Change in Law by the State is not included in the Maximum Rate Adjustment in subsection 3.

(2) Changes in Scope of Service

CONTRACTOR's Direct Costs of providing Contract Services due to changes in Contract Services or Standards.

(3) Extraordinary Circumstances

Change in CONTRACTOR's Direct Costs of providing Contract Services due to unforeseeable events.

c. No Adjustment

Service Rates will not be adjusted:

- During any of the six possible one-month extensions under item A3 of Section 2.
- If there are any uncured Breaches.
- For any slight increase or decrease in Customers due to inaccuracies in Customer data and Service Area boundaries.

2. Rounding

All calculations are rounded to the nearest 1/100th decimal place (for example, 10.9656 percent to 10.97 percent, or 10.9637 percent to 10.96). The decimal 5 is rounded up (for example, 10.965 percent to 10.97 percent). Adjustments in Service Rates are rounded to the nearest penny (for example, \$25.34).

3. Maximum Rate Adjustment

Adjustments to the Service Rates cannot exceed the percentages in the following table, except for changes due to acts of the State in item A1b(1) of this exhibit:

Contract Period (on July 1)*	Maximum Adjustment**
Years 0 to 0.5 (Less than 6 months from Commencement Date to July 1)	0 percent
Years 0.5 to 10 (July 1 to the scheduled Termination Date under Section 2)	5 percent
3-Year / Extension #1, if any (July 1 of any first 3-year extension to June 30 on the extended Termination Date)	5 percent
3-Year / Extension #2, if any (July 1 of any 3-year extension to June 30 further extended Termination Date)	5 percent
3-Year / Extension #3, if any (July 1 of any 3-year extension to June 30 further extended Termination Date)	5 percent
Six 1-month extensions, if any	No Change
Any time (Changes in direct costs due to Change in Law by the State)	Actual Direct Costs

- * Rate Adjustments due to Changes in Laws or Contract Services under subsection A1 above may be implemented at any time during the Term.
- ** Any change in Service Rates for direct costs due to Changes in Law promulgated by the State in item A1b(1) of this exhibit are not included in the percentage calculations of the Maximum Cumulative Service Rate Adjustment. They are added to the percentage calculations.

For example, during the first ten years of the CONTRACT, the Service Rate could increase 35 percent plus an additional amount due to an increase of \$4 per Ton on the State-mandated Disposal fee.

4. Customer 30-Day Notice

CONTRACTOR shall provide all Customers a minimum of 30-days written Notice of the implementation of changes in any Customer Service Rates.

5. Adjustment Limitations

No adjustment will be effective until Notice thereof has been provided by COUNTY to the Board of Supervisors.

Service Rates will be adjusted only if there are no uncured Breaches.

If CONTRACTOR and Director fail to reach an agreement to adjust the Service Rates because of Changes in Law or changes in Contract Services or Standards described below, COUNTY will have the option to not adjust the rate for changes in law, changes in scope of service, or extraordinary circumstances for the upcoming Fiscal Year.

6. Services Eligible for Adjustment

a. Customer Service Rates (CPI)

b. Customer Extra Services Fees (CPI)

B. Discontinued Indices

If a price or index is discontinued on the date of adjustment, the last available price or index for the required period (such as Calendar Year or another 12-month period) will be used, or other index as determined by Director.

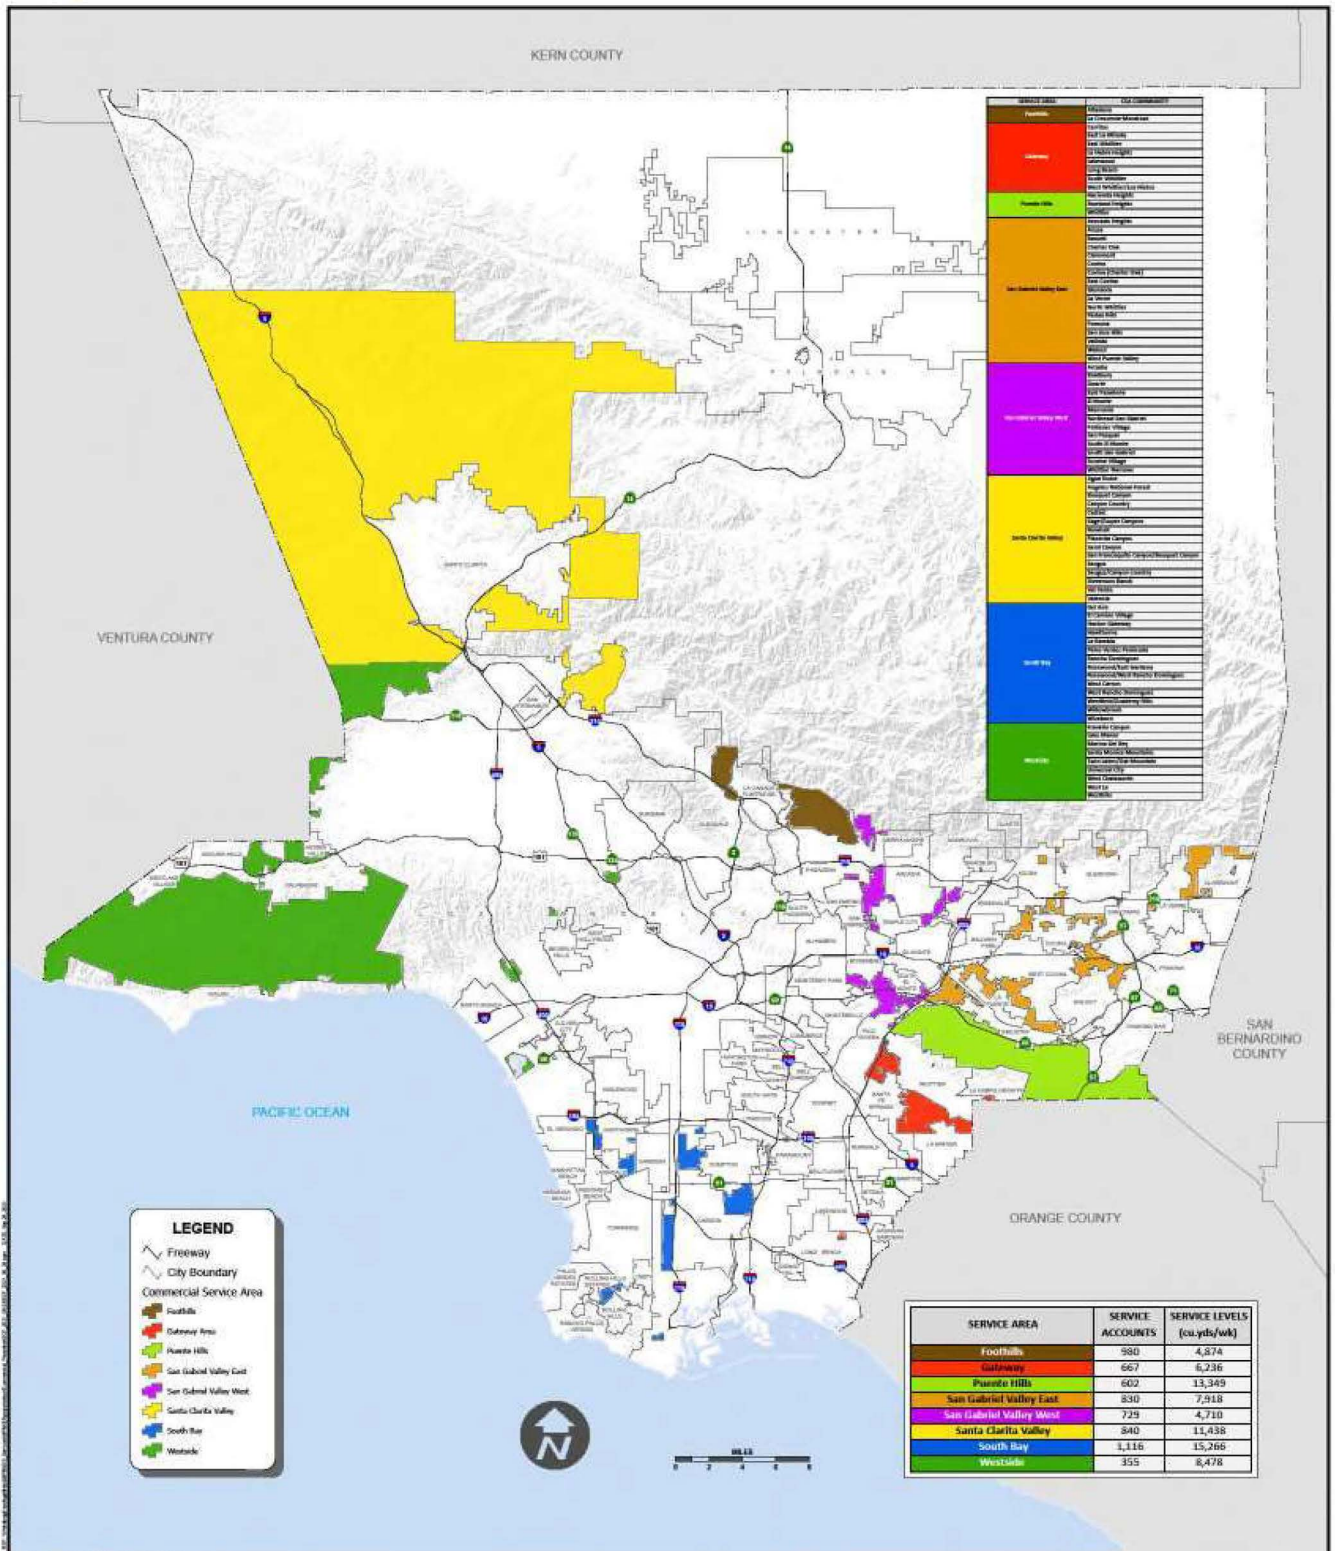

EXHIBIT 16 – Contract Service Area Information

- A. Maps
- B. Service Areas Data Information
- C. Outreach

16.A.1- Map of Exclusive Commercial Franchise Service Areas

EXCLUSIVE COMMERCIAL FRANCHISE AGREEMENT SERVICE AREA

Service Areas Description:

The distribution of the zones balances the geography – in a rather contained capacity, as evident by the color grouping – with the total service accounts and service levels, emphasizing the latter.

The average size (and services) of the territories, which resulted in eight (8) zones, was based on Customer data, as determined to be appropriate capacity for waste haulers, though this is done with a greater emphasis on larger waste volumes to enable investment in Processing infrastructure.

This resulted in a natural variation among the Service Areas by size and services, which allows for different waste haulers to apply for a Service Area(s) based on their own operational capacities. Some Service Areas are intended to remain smaller to ensure viability for small waste haulers.

Foothills and San Gabriel Valley West Service Areas are the two (2) designated smaller Service Areas that have substantially lower total weekly service levels than the other six (6) Service Areas.

16.B.1- Exclusive Commercial Franchise Service Areas Data

The data provided by the existing Non-Exclusive Commercial Franchise (NECF) solid waste haulers was extracted to fit within each Service Area.

This data enabled COUNTY to compile a recent history of the Solid Waste Tonnage, and number of accounts and service levels from 2019 in the Communities that compose the new Exclusive Service Areas:

Projected 2022 Service Levels

COUNTY contracted for an independent analysis of all 2019 accounts located in the eight (8) identified Service Areas to project new service levels for all accounts to have a Three-Container system of Refuse, Recycling and Organic waste. The accounts were further organized into three (3) sectors: Commercial, Multifamily and Residential. The projected service levels for each Service Area per account type and per waste stream are indicated in Forms PW-2 and PW-3 Schedule of Prices.

The following assumptions were made for the Three-Container service level projection analysis:

- 1) There were 413 accounts, of which approximately 6% were identified as questionable (i.e., for Commercial, Multifamily and Residential sectors), not included in the analysis;
- 2) Dumpsters that are greater than or equal to eight (8) cubic yards (CY) were grouped into a Container size category of "8 CY to 40 CY";
 - a. For the purpose of estimating the volume of material for this category, an average Dumpster size of 35 CY was used;
- 3) It was also noted that some of the accounts were listed to have zero (0) Collection frequency. The accounts with zero (0) frequency were included in the analysis as 1 time per week frequency;
- 4) Green Waste is managed by third party landscapers unless a Customer has existing Green Waste service;
- 5) The average Organic Waste percentage of total Refuse (CalRecycle, 2019) for each account type was estimated as follows:

- a. Commercial – 20% (except as noted below)
 - i. This is based on the average Organic Waste composition of 20+ industries;
 - ii. For accounts that are part of the Accommodation sector, the Organic Waste composition used was 32%;
 - iii. For accounts that are part of the Restaurant sector, the Organic Waste composition used was 51%;
 - iv. For accounts that are part of the Grocer sector, the Organic Waste composition used was 42%; and,
 - v. For accounts that are part of the Arts and Entertainment (includes amusement parks and event venues) sector, the Organic Waste composition used was 34%.
 - b. Multifamily – 25%
 - c. Residential – 18%
- 6) Less than 1% of the accounts had existing Organic Waste Collection in the 2019 dataset. The projected Organic Waste volume was estimated based on the size of the Refuse Containers, estimated Refuse density for the respective sector and the Organic Waste composition assumption above for all accounts.
- 7) The average recycling percentage of total Refuse (CalRecycle, 2019) for each sector is estimated as follows:
- a. Commercial – 46%
 - i. This is based on the average Recycling composition of 20+ industries.
 - b. Multifamily – 42%
 - c. Residential – 22%
- 8) Approximately 25% of accounts had existing Recycling Collection Services. The remaining projected Recycling volume was estimated based on the volume of the Refuse Containers for the accounts that do not have Recycling Collection;
- 9) For the purposes of the new projected service levels, the Organic Waste and Recycling volume is conservatively based on 100% capture rate;
- 10) The average Refuse percentage for each sector is estimated as followed:
- a. Commercial – 58%
 - i. Assumed a 100% capture of Organic Waste and 50% capture of Recycling; and,

- ii. For accounts that have high Organic Waste composition, it is assumed to have 75% capture of Organic Waste and 50% capture of Recycling.
 - 1. For accounts that are part of the Accommodation sector, the Refuse composition used was 55%;
 - 2. For accounts that are part of the Restaurant sector, the Refuse composition used was 40%;
 - 3. For accounts that are part of the Grocer sector, the Refuse composition used was 47%; and,
 - 4. For accounts that are part of the Arts and Entertainment (includes amusement parks and event venues) sector, the Refuse composition used was 55%.
- b. Multifamily – 54%
 - i. Assumed a 100% capture of Organic Waste and 50% capture of Recycling.
- c. Residential – 80%
 - i. Assumed a 50% capture of Organic Waste and 50% capture of Recycling.

The following assumptions were made for the Two-Container service level projections analysis, applicable to all Customer types:

1) Two-Container A (Gray and Blue Containers)

- i. Gray Container (Refuse and Organic Waste) - Utilized existing Non-Exclusive Commercial Franchise Customer Refuse service level data.
- ii. Blue Container (Recyclables)- Utilized Recycling projected service levels from the three-container service level projections analysis.

2) Two-Container B (Gray and Green Containers)

- i. Gray Container (Refuse and Recyclables) - Utilized existing Non-Exclusive Commercial Franchise Customer Refuse service level data.
- ii. Green Container (Organic Waste) - Utilized Organic Waste projected service levels from the three-container service level projections analysis.

The following assumptions were made for the One-Container service level projections analysis, applicable to all Customer types:

- 1) One-Container (Gray Container)
 - i. Utilized existing Non-Exclusive Commercial Franchise Customer Refuse service level data.

Item B.3 - Terms and Conditions Summary (Item I1 of Exhibit 3A1)

This item consists of 9 pages (including this page).

Bill of Rights

EXCLUSIVE COMMERCIAL FRANCHISE

CUSTOMER BILL OF RIGHTS

What We Will Collect. We will collect trash (also known as refuse), organic waste, and commingled recyclables in containers we provide. You must place refuse, recyclable materials, and organic waste in the appropriate collection containers. We may not pick up materials that are discarded outside of containers and as such may be considered a non-collection event unless you have made previous arrangements with us, as described below.

Mandatory Organic Waste Collection Services. The Los Angeles County Board of Supervisors adopted the Mandatory Organic Waste Disposal Reduction Ordinance, which enforces all persons (residents and business/property owners) in the County unincorporated communities to subscribe to organic waste collection services. To comply with this law, you may self-haul, self-manage organic waste on site, utilize an authorized Micro-Hauler (Limited to Organic Waste Collection Only), or you may choose to receive organic waste collection services with us. Additionally, all our customers will be provided a 64-gallon cart of weekly organic waste collection services at no additional charge, along with their weekly refuse collection services.

Should you need more containers, we can offer a variety of sizes at a cost. Please contact us for your needs.

Mandatory Commercial Recycling. Commercial businesses and multifamily residences (of 5 or more units) that generate four (4) cubic yards or more of solid waste per week are required by California law to recycle. To comply with the law, you may donate or sell any of, or all, your recyclables elsewhere, such as recycling centers or reuse enterprises, or subscribe to recycling services with us. Additionally, all our customers will be provided a 96-gallon cart of weekly recycling collection services at no additional charge, along with their weekly refuse collection services. Larger containers will be offered at half the rate for the same type and capacity of refuse container and same frequency of a refuse collection service. To evaluate and determine whether your existing levels of refuse, recycling, and organic waste services are appropriate, and promote and implement recycling services, a free site visit and waste assessment will be provided upon the start of collection services. Ongoing site visits and waste assessments will be provided every other year thereafter or as needed.

We Will Not Collect Hazardous Waste. State law prohibits disposal of hazardous materials in your collection containers. Hazardous waste includes most paints, pesticides, petroleum derivatives such as motor oil and solvents, batteries, thermostats, aerosol cans, fluorescent lights, and certain mercury-containing devices. If we identify these items in your containers, we will tag your containers and they will not be collected. For additional safe and legal disposal options, call 1 (888) CLEAN LA or visit www.CleanLA.com.

When We Will Collect. We will collect your containers on your scheduled collection day(s) each week. We will notify you in advance if we make a permanent change in your scheduled collection day. If your scheduled collection day falls on or after a holiday, or during a holiday week, collection will be delayed by one (1) day. (Friday customers will receive their collection on Saturday.) We

observe the following holidays: Memorial Day, Independence Day, Labor Day, Thanksgiving, Christmas, and New Year's Day.

Where We Will Pick Up. You must set your containers(s) at the set-out site as agreed upon unless you have roll-out/scout service. If we agreed to collect on private driveways or pavement, we will ask you to sign a waiver of damage liability. We must repair or replace, to your satisfaction, damaged property, and reimburse you for cost of personal injury caused by our negligence or willful acts or omissions. In addition to enforcing your rights under the franchise agreement, you may institute civil suits allowed under law.

Container Enclosure Maintenance and Litter. You are responsible for keeping your container enclosure or set-out site clean and in good repair. We will clean up all litter caused during collection.

Weight Limitations of Carts or Dumpsters. We will not pick up carts weighing more than 100 or dumpsters weighing more than: 1 cubic yard bin to 6 cubic yard bin= max weight of 500 lbs, etc.

Repair/Replacement. At no additional charge, we will repair or replace damaged containers within two service days after we have observed damaged containers while providing service and upon your request, unless the container damage is deemed to be due to customer negligence.

Bulky Items and Electronic Waste Pickups for Multifamily and Residential Customers.

We will provide a specified maximum amount of bulky item pickups per year at no charge (limit of ten (10) items per pickup) based on the number of units on the premises, as specified in the chart below.

Residential and Multifamily Premises with Number of Units	Maximum Collection Pickups (no additional cost to Customer)
MF Premises with 150+ units	Up to 50 per year No Charge
MF Premises with 101-149 units	Up to 40 per year No Charge
MF Premises with 50-100 units	Up to 30 per year No Charge
MF Premises with 25-49 units	Up to 20 per year No Charge
MF Premises with 1-24 units *1-unit accounts for a Residential Customer	Up to 10 per year No Charge

Examples of bulky items include discarded furniture (such as chairs, sofas, mattresses, box springs, and rugs), appliances (such as refrigerators, ranges, washers, dryers, water heaters, dishwashers, plumbing), and other similar items. The collection of special recyclable and reusable items such as textiles, wood and lumber are also included.

Bulky Items and Electronic Waste Pickups for Commercial Customers. We will make six (6) pickups of bulky items (limit of ten (10) items per pickup) and unlimited amounts of certain

electronics at your request each year. If you call us at least 24 hours in advance, we will collect them on your next regularly scheduled pickup day.

When You Must Pay. We bill trash collection services monthly in advance. We will mail your bill on or before the first day of your billing period, i.e., April 1st for the billing period of April. Your bill is due no later than the last day of the first month. With this example, that would be April 30th. If we do not receive payment by the last day of the second month, i.e., May 31st, your bill will become delinquent and an additional 10% fee will be added to the balance. We may terminate your service if you do not pay your service fees by the end of the billing cycle, i.e., June 30th. We will charge \$25 to restart the service after a service interruption and a \$25 fee on returned checks.

Refunds. We will refund any overcharges (including advance payments for services that you subsequently cancel) within 30 days after we receive them. We will pay you interest on overcharges (other than advance payments for subsequently canceled services) at 10% per annum from the date of the overcharge until the date refunded.

Third Party Services. Customers have the option to obtain extra services such as: roll-out and scout service through another service provider.

Customer Termination Rights and Right to Self-haul. Within six (6) months of your new service, we will amend any written subscription order you may have with us to grant you your customer termination rights. You may terminate service at any time by giving us 14-days' notice, your notice must include a reason for the termination. You also have the right to self-haul some of, or all, your solid waste in addition to, or instead of, subscribing to our service.

Customer Notification. We will provide a written final notice (postmarked at least 14 days in advance) if we are to suspend or terminate your service. The final notice will include an explanation for the suspension or termination and information on how to resolve your issue and restart service.

Where You Can Contact Us. You may call us toll-free regarding service or complaints at (800) 675-1171 between 8:00 am and 5:00 pm on weekdays, except holidays. You may come to our office located at 9081 Tujunga Ave, Sun Valley CA 91352 or mail correspondence to our office address. If we do not satisfactorily resolve any complaint, you may call Los Angeles County Public Works at 1-888-253-2652.

We Do Not Discriminate. If you are entitled to service, we will not discriminate against you on account of race, creed, color, sex, gender, national origin, ancestry, religion, age, physical or mental disability, marital status, or political affiliation.

Rights Of Privacy. We will observe and protect your rights of privacy and trade secrets. Unless you give us permission, we will not reveal any information identifying you or the composition or contents of your solid waste to any person except the County, or as required by law.

Thank You for Allowing Waste Management to Serve You!

BOND FOR FAITHFUL PERFORMANCE

Annually Renewable Performance and Payment Bond

Bond No. 2330837

KNOW ALL MEN BY THESE PRESENTS: That G.I. INDUSTRIES

("Principal") and SWISS RE CORPORATE SOLUTIONS AMERICA INSURANCE CORPORATION ("Surety"), are held and firmly bound unto the COUNTY OF LOS ANGELES, State of California ("Obligee"), in the penal sum of Fifty-Thousand and No/100 (\$50,000.00) dollars for the payment of which sum, the Principal and Surety bind themselves, and each of their heirs, administrators, executors, successors and assigns, jointly and severally, firmly by these presents.

Exclusive Commercial Franchise Services for the Westside Area (BRC0000246)

WHEREAS, the Principal has entered into a contract with the Obligee entitled

(the "Franchise Agreement") for the performance of the terms, conditions, covenants and obligations and services set-forth in the Franchise Agreement, including but not limited to providing Franchise services in bins or dumpsters and roll-off boxes in the unincorporated areas of Los Angeles County and payment of the applicable franchise fee; and payment of any liquidated damages assessed pursuant to the Franchise Agreement; and

WHEREAS, the Franchise Agreement is hereby referred to and made a part hereof as fully and to the same extent as if copied at length herein;

NOW, THEREFORE, THE CONDITION OF THE ABOVE OBLIGATION IS SUCH, that if the Principal shall well and truly perform each and every covenant and obligation in the Franchise Agreement at the time and in the manner specified in the Franchise Agreement during the term of this bond, shall reimburse the Obligee for all loss and damage, which the Obligee may sustain by reason of failure or default on the part of the Principal, then this obligation shall be void, otherwise it shall remain in full force and effect.

PROVIDED, however that this bond is subject to the following conditions and provisions:

1. This bond is for the term beginning August 1, 2022 and ending July 31, 2023.
2. In the event of default by the Principal in the performance of the Franchise Agreement during the term of this bond, the Surety shall be liable only for the loss to the Obligee due to damages as described in Section 14 of the Franchise Agreement. The Surety, after investigation, shall with reasonable promptness determine the amount for which it may be liable to the Obligee as soon as practicable after the amount is determined, and tender payments to the Obligee to secure substitute services, remedy damages incurred, and ensure satisfaction of all performance obligations as set-forth in Section 14 of the Franchise Agreement and only for the purpose of enforcing such Franchise Agreement obligations as they pertain to this bond.
3. Except for a claim for compensatory damages as defined in Section 11, D.1 of the Franchise Agreement, no claim, action, suit or proceeding, except as hereinafter set-forth, shall be had or maintained against the Surety on this instrument unless it be brought or instituted and process served upon the Surety within two years after the expiration of the stated terms of this bond.
4. Neither non-renewal by the Surety, nor the failure or inability of the Principal to file a replacement bond in the event of non-renewal, shall itself constitute loss by the Obligee recoverable under this bond, notwithstanding any language in the Franchise Agreement to the contrary.
5. The bond may be extended for additional one-year terms at the option of the Surety, by Continuation Certificate executed by the Surety.
6. The liability of the Surety under this bond and all Continuation Certificates shall not be cumulative and under no circumstances shall the Surety's liability exceed the penal sum stated herein.
7. No right of action shall accrue on this bond to or for the use of any person, entity, or corporation other than the Obligee and this bond cannot be assigned to any other party without the written consent of the Surety.
8. Other than the Surety's right to renew this bond to extend its termination date, the Surety stipulates and agrees that any change, extension of time, alteration or addition to the terms of the Contract, including alterations in the work to be done, or increase or decrease of the material to be furnished, shall not in any way release either the Principal or Surety, and Surety hereby waives notice of any such change, extension of time, alteration or addition.
9. In the event that suit is brought against this bond, the Surety will pay, in addition to the penal sum herein, costs and reasonable expenses and fees, including reasonable attorney's fees, as awarded and fixed by the court.

Diversion Requirements

Proposer shall fully describe plans to meet the State-mandated Diversion requirements within the County, and the County's Zero Waste Plan.

Tailored and multifaceted Implementation and Monitoring Plan

WM understands that a comprehensive education and outreach campaign is required early on to achieve the desired recycling behavior and knowledge base among LA County residents and businesses. Using various methods of communication, WM will provide clear, concise, and relevant service and educational information to residents and businesses.

WM also understands that each customer will present unique challenges such as space, location, generation volume, demographics, property type, and available resources. For this reason, site-audits and technical assistance will be instrumental to improve recycling practices and assist commercial customers with State mandate compliance. To assist the County in achieving a strong State compliance record, our local team is committed to providing a strong outreach campaign early in the transition.

7. Organic Waste Processing and Capacity	
a. Securing Capacity	WM will secure adequate, verifiable diversion capacity to process organic waste solely for the WM's Service Area, (Westside area) and in compliance with SB 1383, Article 11, Section 18992.1.
b. Proof of Guaranteed Organic Waste Processing Capacity	WM is providing the County with a copy of a letter or an agreement from organic waste processing facility that process organic waste, to demonstrate proof of guaranteed organic waste processing capacity that has been secured to process all of the organic waste collected in WM's service area.

WM's volume capacity guarantee for the Westside area follows.

A. Green Waste Definitions and Regulatory Movement Requirements

'Green Waste' is unprocessed or processed vegetative material which contains any of the following or a mixture thereof: stems, leaves, culls, discarded fruits and vegetables, grass clippings, weeds, yard trimmings, wood/vine/processing/harvesting waste, hulls, bark, branches, logs and stumps, home garden/field/vineyard/grove/orchard residues, duff, mulch, compost, and other miscellaneous plant materials.

1. 'Unprocessed Green Waste' is 'Green Waste' in the raw state. It has not undergone any mechanical procedure to lessen the pest risk and is therefore a regulated item. All parties involved in selling, transporting, or receiving 'Unprocessed Green Waste', from a Quarantine Area, must have a Program issued compliance agreement. The movement of 'Unprocessed Green Waste' is regulated, and it must remain within the quarantine area.
2. 'Processed Green Waste' is 'Green Waste' that has undergone some mechanical procedure to lessen or eliminate the pest risk. Depending upon the degree of processing, it may or may not be a regulated item. All parties involved in selling, transporting, or receiving 'Processed Green Waste', from a Quarantine Area, that is not completely processed into 'Compost' must have a Program issued compliance agreement. The movement of 'Processed Green Waste' is dependent upon the degree of processing (mulch or compost). Refer to items a and b.
 - a) 'Mulch' is 'Processed Green Waste' that has been chipped, ground or shredded. 'Mulch' is not completely processed and still poses a pest risk, and is therefore a regulated item. All parties involved in selling, transporting, or receiving 'Processed Green Waste' in the form of 'Mulch', from a Quarantine Area, must have a Program issued compliance agreement. The movement of 'Mulch' is regulated, and it must remain within the quarantine area.
 - b) 'Compost' is 'Processed Green Waste' composted in accordance with California Code of Regulations, Title 14, Division 7, Chapter 3.1. 'Compost' is completely processed and no longer poses a pest risk, and is therefore not a regulated item. All parties involved in selling, transporting, or receiving 'Processed Green Waste' in the form of 'Compost', from a Quarantine Area, are not required to have a Program issued compliance agreement. The movement of 'Compost' is unregulated, and it may move within or outside of any quarantine area.

**In special circumstances, and with prior Program approval, regulated forms of 'Green Waste' may be moved outside the Quarantine Area to approved receivers under compliance.*

6. Movement of Green Waste from this Facility*

Do not move unprocessed green waste, or green waste that has been processed incompletely (mulch) from this facility, except under the direction of the County Agricultural Commissioner or a designated representative. Upon receiving notification from the Commissioner that green waste may be moved from this facility, the Establishment shall comply within 90 days. Unprocessed green waste and green waste processed incompletely (mulch) must be moved to a receiver within the Quarantine Area, and via a transporter/hauler both operating under a Program issued Compliance Agreement for each applicable pest checked above.

When allowed by the County, the movement of green waste must abide by the following:

A. Green Waste Definitions and Regulatory Movement Requirements

'Green Waste' is unprocessed or processed vegetative material which contains any of the following or a mixture thereof: stems, leaves, culls, discarded fruits and vegetables, grass clippings, weeds, yard trimmings, wood/vine/processing/harvesting waste, hulls, bark, branches, logs and stumps, home garden/field/vineyard/grove/orchard residues, duff, mulch, compost, and other miscellaneous plant materials.

1. 'Unprocessed Green Waste*' is 'Green Waste' in the raw state. It has not undergone any mechanical procedure to lessen the pest risk and is therefore a regulated item. All parties involved in selling, transporting, or receiving 'Unprocessed Green Waste', from a Quarantine Area, must have a Program issued compliance agreement. The movement of 'Unprocessed Green Waste' is regulated, and it must remain within the quarantine area.
2. 'Processed Green Waste*' is 'Green Waste' that has undergone some mechanical procedure to lessen or eliminate the pest risk. Depending upon the degree of processing, it may or may not be a regulated item. All parties involved in selling, transporting, or receiving 'Processed Green Waste', from a Quarantine Area, that is not completely processed into 'Compost' must have a Program issued compliance agreement. The movement of 'Processed Green Waste' is dependent upon the degree of processing (mulch or compost). Refer to items a and b.
 - a) 'Mulch*' is 'Processed Green Waste' that has been chipped, ground or shredded. 'Mulch' is not completely processed and still poses a pest risk, and is therefore a regulated item. All parties involved in selling, transporting, or receiving 'Processed Green Waste' in the form of 'Mulch', from a Quarantine Area, must have a Program issued compliance agreement. The movement of 'Mulch' is regulated, and it must remain within the quarantine area.
 - b) 'Compost' is 'Processed Green Waste' composted in accordance with California Code of Regulations, Title 14, Division 7, Chapter 3.1. 'Compost' is completely processed and no longer poses a pest risk, and is therefore not a regulated item. All parties involved in selling, transporting, or receiving 'Processed Green Waste' in the form of 'Compost', from a Quarantine Area, are not required to have a Program issued compliance agreement. The movement of 'Compost' is unregulated, and it may move within or outside of any quarantine area.

Item B.21 - Contamination Monitoring Plan

This item consists of 3 pages (including this page).

In accordance with Section 18984.5 of the SB 1383 regulations, WM will conduct route reviews to inspect each customer's recycling and organic waste containers for container contaminants at least once per year. Upon request, WM will conduct quarterly route reviews with large organic waste customers (<4 CY weekly.)

WM's Contamination Monitoring Plan will incorporate a three-tiered approach:

1st Incident - Upon finding container contaminants, WM will photograph and provide written notice to the customer that includes information regarding properly separating materials. Notice will be left on the container, at the door, and/or mailed, emailed, or electronically messaged so that notification is received prior to the next scheduled collection. Contamination notices will be presented to LA County for approval.

2nd Incident - If second incident occurs, WM will photograph and provide written notice to the customer that provides a warning that they will be charged a contamination fee if no compliance is attained by next collection day.

3rd Incident - If third incident occurs, WM will photograph, provide a written notice, and will collect the contaminated container and may charge the customer a contamination fee. If we our intentions include non-collection and/or extra fees or charges, we will seek approval by the County before implementing and photographic evidence will be provided to the County for justification.

WM's Contamination Monitoring Formula

The Recycling containers shall be considered contaminated if it contains more than ten percent (10%) Non-Recyclable material by weight or volume. The Organic Waste containers shall be considered contaminated if it contains more than ten percent (10%) Non-Organic Waste material by weight or volume.

Disposal of Contaminated Materials

If/when WM observes container contaminants, we may dispose of the container's contents, provided we have complied with the noticing requirements described above. WM will report the total number of resulting containers disposed of in Part I, Sample Contract, Section 10, Item A1, as follows.

i. Contamination Monitoring

WM will report the number of route reviews conducted for contamination monitoring and the number of times notices, violations, or targeted education materials were issued to customers for container contaminants including the total number of containers disposed as refuse due to the observation of container contaminants as described in Item J1 of Exhibit 3A1.

WM will comply with the additional requirements specified in Part II, Sample Contract, Exhibit 3A1, under Item J1.

J. 1. Contamination Monitoring	
a. Collection Route Reviews	WM will rely on our proprietary WM Smart Truck SM camera technology for inspection of containers along a collection route.
b. Contamination Noticing	WM will follow the same procedures detailed here when our personnel observe container contaminants not solely found during the collection route reviews (i.e., on regular scheduled service routes).
c. Adequate service Level	WM will review and make recommendations for the number and size of the customer's organic waste containers to ensure an adequate level of service for the amount of organic waste generated, to ensure proper separation of materials and containment of materials.
d. Reporting Requirements	WM will maintain contamination monitoring activity records and report quarterly regarding actions taken, in accordance with Section 10 Reports.

Smart Onboard Cameras Assist in Adequate Service Level Sizing

As our drivers arrive at a customer's location, they follow a standardized Snapshot process to check for any abnormalities, such as overflowing bin(s), waste surrounding the container, or contamination. Using Waste Management's proprietary onboard computing system, our drivers notate and photograph customer-specific collection challenges. This information is automatically tagged to the customer's account and allows us to proactively reach out with a customized service recommendation or solution based on a customer's exact needs. Solutions may include changing collection frequency, container sizes, or expanding recycling efforts and providing additional recycling education.

Item B.22 - Procurement of Recovered Organic Waste Products (Item J4 of Exhibit 3A1)

This item consists of 3 pages (including this page).

WM will assist LA County in meeting the procurement obligations for SB 1383's Procurement of Recovered Organic Waste Products. WM will follow and utilize the approved plan for the Procurement of Recovered Organic Waste Products as submitted in accordance with Contractor Documentation in Exhibit 17 and WM is fully prepared to assist LA County in meeting its obligations for procurement of recovered organic waste products, as set forth in 14 CCR Section 18993.1 and Sections 4.4.10 and 4.4.11 of the RFP.

WM believes that flexibility is the key to meeting this requirement over the life of the franchise, so that the products utilized can be responsive to ever-changing environmental, regulatory, and economic factors and WM can provide a complete closed loop and a reduced carbon footprint for organics processing. WM is providing the estimated total fuel usage for the Service Areas and calculation of procurement amounts for the Alternative Procurement Plan as stated below:

Compost and Mulch - Bring Nature’s Recycling Benefits Home

WM is committed to strengthening LA County’s procurement efforts by procuring the necessary amount of compost and mulch to meet the County’s per capita requirement contained in SB 1383. One way that WM will help the County meet this requirement is through a County Free Mulch and Compost Giveaway program that will be available to all LA County residents twice a year and for FREE. WM would work with LA County to coordinate the Free Mulch and Compost Giveaways.

Residents will be able to fill up their containers and collect high-quality mulch and compost on a first-come, first-serve basis. Residents will take pride in knowing that their organic waste recycling effort contributed to the mulch and compost material they will be taking home to use in gardens as an effective way to improve soil health, increase plant production, and reduce the use of water, chemical fertilizers, and pesticides. In addition, WM staff will work closely with County staff to assist with providing mulch and/or compost to the County’s own facility needs.

Renewable Natural Gas

Waste Management (WM) has been an early adopter of clean energy technology since the early 1990s and currently has the largest fleet of natural gas vehicles in our industry. WM has invested \$ 2.5 billion on natural gas vehicles and an additional \$ 550 million on fueling infrastructure. Our 2,000 natural gas collection trucks in California are the largest heavy-duty natural gas truck fleet of its kind in the state. WM’s California fleet (as well

as other haulers' fleets) currently runs solely on renewable natural gas (RNG) procured from GHG feedstocks, most notably dairy RNG. However, California's refuse fleets are one of the largest consumers of RNG in the state of California. As such, it is critical to note that the prospective future supply of SB 1383 compliant RNG is only a fraction of what the state's refuse fleets consume today. Further, WM is not aware of any source of in-state RNG that complies with the SB 1383 definition sufficient to fuel a fleet necessary to service the City. Infrastructure for the production of renewable energy in the form of renewable natural gas transportation fuel is developing, and this renewable fuel may become available in adequate quantities in future years. WM is closely monitoring those developments.

WM's ongoing investments in RNG production facilities, coupled with a robust natural gas fleet, are assisting the County and State in achieving a near-zero emissions collection fleet. However, RNG as defined under SB 1383 is not commercially available in the County. As a result, WM remains committed to using RNG as defined in SB 1383 once it becomes commercially available in the region and will continue to use RNG procured from other sources until that time.

WM will maintain records of all procurement activities and shall report this information in accordance with Section 10 Reports.
