

Meeting Summary

Waste Discharge Requirements – Working Group Meeting #13

Thursday, April 21, 2016

2:00 pm – 4:00 pm

Los Angeles County Department of Public Works
900 S. Fremont Ave, Alhambra, CA 91803
Conference Room D

Attended by: see sign-in sheet

Agenda Items & Summary:

1. Introductions
2. Maintenance Methodology Pilot Project (MMPP) Report for LAR Reaches 24 & 25
Available on: <http://dpw.lacounty.gov/LACFCD/WDR/fs.aspx>
 - a. Report was submitted to the Regional Board
 - b. Comments on the MMPP report may be directly submitted to Public Works
 - c. Implemented practices under this MMPP will be considered for other feasible reaches
3. Discussion on MMPP locations for future maintenance year(s)
 - a. Working Group discussed the 8 LAR reaches with excess capacity for future MMPP implementations (see attached table)
 - b. LACFCD proposed Reaches 7 & 19 for the next round of pilot projects
 - c. Working Group will provide feedback on the proposed reaches and make the final selection by the next Working Group meeting in May 2016
4. Discussion on parallel paths for potential project - LA River Reaches No. 13 & 14
 - a. Public Works' Flood Maintenance Division will take the lead on figuring out steps necessary to initiate projects on these reaches
 - b. Interested parties may put their name on the distribution list by contacting Siyavash Araumi at saraumi@dpw.lacounty.gov to be updated and included in future discussions
5. Next agenda items
 - a. Discussion on proposed updates to the Maintenance Plan for Reaches 1-110
 - b. Pre-discussion on the Water Quality Sampling scope of work

Action Item(s):

1. Public Works to provide the kmz file of soft-bottom channel reaches
Available on: <http://dpw.lacounty.gov/LACFCD/WDR/workgroup.aspx>

Next Meeting: Wednesday, May 18, 2016, 1:30 – 3:30 PM
Conference Room B
