DEPARTMENT OF PUBLIC WORKS
BENCH MARK LIST

LANCASTER QUAD

1998 ADJUSTMENT

**NAVD 88 DATUM
METRIC**

OFFICE COPY

PREFACE
1998 LANCASTER QUAD

The Department of Public Works level net is composed of more than 1,700 miles (2720 kilometers) of levels supporting in excess of 9,000 bench marks. Previously when a major readjustment of the net was undertaken, the CY, CG, & CL series bench marks were re-labeled DY, DG, & DL, respectively.

Beginning in 1993, the baseline readjustment year will be indicated on baseline BM'S only, as indicated below (*). Henceforth, all BM numbers will be labeled as a Y, G, or L, series. This designation will no longer indicate the major adjustment year.

To facilitate the adjustment, indexing and distribution of adjusted values of the net, the county territory was divided into 33 quads or areas. For identification purposes, each quad was given a name, i.e. , "Rosemead", "La Mirada", "Santa Fe", etc. When bench marks and elevations in these quads are used, the name must be included in the bench mark description as shown below ,

* BASELINE 90.057 L&BR IN CTR OF CB RET @ NE COR LA HABRA BLVD Y 9191
(1990) 295.461 & VALLEY HOME AVE 10.7M N & 10.7. E/O C/L INT

Updating constrained adjustments will continue in the future. When a quad is readjusted, new elevations will be published and the date of readjustment will be noted in the bench mark description. Two bench marks with different adjustment dates will not normally agree with each other.

The basic accuracy of the net is reflected by an indicated field probable error of plus or minus 0.004mm per kilometer of leveling as determined from the conditions of closure. However, many years of experience in vertical control in the greater Los Angeles basin and Antelope Valley indicate that because of varying subsidence and heaving, the true datum is recovered only by obtaining substantial agreement from a number of different bench marks.

The users of this net are invited to assist in its maintenance by notifying this department in cases of obliteration, apparent mistakes in description or elevations, and proven disturbance of bench marks.

DATUM: North American Vertical Datum of 1988 (NAVD88)

Caution: NAVD 1988 Datum minus approximately ~~450mm (1.5ft)~~ 900mm (3.00ft)
Equals previous NGVD 1929 Datum. For more accurate equations at individual bench marks refer to previous publications.

ABBREVIATIONS USED IN BENCH MARK LISTINGS

ABUT -----	Abutment	ECR -----	End of Curb Return
ALG -----	Along	EC -----	End of Curve
ANG PT -----	Angle Point	ENT -----	Entrance
B/W -----	Back of Walk	FL -----	Floor
BCR -----	Beginning of Curb Return	FTG -----	Footing
BC -----	Beginning of Curve	FRWY -----	Freeway
BLDG -----	Building	F/W -----	Front of Walk
