

**LOS ANGELES COUNTY  
DEPARTMENT OF PUBLIC WORKS**

**BENCH MARK LIST**

**PUENTE QUAD**

**1990 ADJUSTMENT**

## PREFACE 1990

The Department of Public Works' level net is composed of more than 1,700 miles of levels supporting in excess of 9,000 bench marks. In 1990, a major readjustment of the Baseline and nets was undertaken. To emphasize the complete break with previous elevations, the CY, CG & CL series bench marks have been relabeled DY, DG, & DL, respectively.

To facilitate the adjustment, indexing, and distribution of adjusted values of the net, the County territory is divided into 33 quads or areas. For identification purposes each quad is given a name, viz., "Rosemead," "La Mirada," "Santa Fe", etc. When bench marks and elevations in these nets are used, the name of the quad and the date of the adjustment must be included in the bench mark description, e.g.,

DY 9701 - RDBM TAG IN CB 5FT S/O BCR @ SE COR BOLSA ST & DOMINGUEZ ST  
63FT S & 20FT E/O C/L INT  
(GARDENA - 1990) ELEV. 16.704

Experience indicates that this general adjustment will, for the most part, remain sound for the next 10 years. Updating constrained adjustments will be made in 5 years. It is expected that these updating adjustments will be in the nature of a few hundredths of a foot. When a quad is readjusted, new elevation lists will be published and the date of the readjustment will be noted in the bench mark description. Two bench marks with different adjustment dates will not normally agree with each other.

The basic accuracy of the net is reflected by an indicated field probable error of plus or minus 0.012 foot per mile of leveling as determined from over 600 conditions of closure. However, many years experience in vertical control in the greater Los Angeles basin and Antelope Valley indicate that because of varying degrees of subsidence and heaving, the true datum is recovered only by obtaining substantial agreement of a number of bench marks.

The users of this net are invited to assist in its maintenance by notifying this Department of cases of obliteration, apparent mistakes in descriptions or elevations, and proven disturbance of bench marks.
