

Alondra Park Multi-Benefit Stormwater Capture Project

Presented by: Lara Awad

Date: August 17, 2023

Alondra Park Multi-Benefit Stormwater Capture Project

Overview

The Project will construct a stormwater capture system at Alondra Park

- The project will implement multiple underground stormwater capture components
- Capturing runoff that will either be diverted into the sanitary sewer system or treated and released into the Dominguez Channel.
- Various above ground and recreational enhancements to be implemented at Alondra Park

Past Events

- April 4, 2019 El Camino Community Meeting
- August 8, 2020 Community Information Session
- April 20, 2023 Alondra Park Preconstruction Meeting

Construction is anticipated to begin in Late November 2023

Project Partners

Project Partners

- City of Redondo Beach
- City of Lawndale
- City of El Segundo
- City of Hawthorne

Potential Projects Limits

Updated Project Schedule

Preconstruction meeting was held at Alondra Park with El Camino Village Community.

Previous Meeting

Supplemental funding was allocated to preserve scope of work for the Alondra Park Project.

Allocate Funding

Contractor will begin to move in and prepare for construction scheduled in November.

Move in Period

Expected date of when project is set to be completed

Project Completion

April 25, 2023

April 20, 2023

MAY 2023 - JUNE 2023

Mid SEP 2023

2026

Bid Opening Date

Contractor bids are opened and assessed. Lowest bid was approximately 20% higher than estimated.

Board Letter Approval

August 8, 2023

The board letter with updated costs of project is anticipated for approval on August 8, 2023, granting permission for contractor to begin construction.

Construction Begins

Late NOV 2023

Construction will officially begin.

Contractor Information

OHLA USA

"We have built some of the most complex, challenging projects - from coast to coast."

- Road Improvement Projects
- Building Improvement Projects
- Stormwater Quality Project
 - Machado Lake Ecosystem Rehabilitation

Next Steps

Next Meeting

Tentative date is October 2023

- Likely to host standalone event
- Plan to return with construction specific details and contractor information.
 - Construction timeline and milestones
 - Construction impacts
 - Construction schedule
