

ATTACHMENT 8 – SCHEDULE

**San Gabriel and Lower Los Angeles Rivers Watershed  
IRWM Implementation Grant, Step 1**

The projects included in this proposal span a wide range of timeframes. An overall schedule for proposal implementation is presented and is followed by detailed schedule information for each individual project. The individual schedules show the start and end dates for each of the following work items in a horizontal bar format, assuming July 1, 2006, as the effective date of the grant agreement:

- CEQA / NEPA preparation and completion
- Project design and bid solicitation process
- Acquisition of land, or rights of way, if required
- Identification and acquisition of all necessary permits
- Construction start and end dates
- Environmental mitigation or enhancement efforts
- Post implementation, construction, and monitoring efforts
- Other work items

If one of the above listed work items was not applicable or required for a project, then the item is not listed. The schedules start from January 2005, and if the projects that were initiated prior to this date, then the date of actual initiation is noted.

The overall schedule shows each project and its respective schedule from onset through construction completion. For many projects, post construction monitoring will be ongoing and has no completion date. Therefore, the post construction monitoring is not shown on the overall summary schedule, and noted on the individual schedules as ongoing, when applicable.

**PROJECT IMPLEMENTATION PROPOSAL  
 PROJECT SCHEDULE**

PROJECT NAME	2005												2006												2007												2008												2009												2010												2011
