

LOS ANGELES COUNTY WATERWORKS DISTRICT NO. 29

MALIBU BRANCH FEEDER REALIGNMENT

Scope:

Relocate over 1,500 feet of the region's water main to the current PCH alignment. The City of Los Angeles is constructing the Potrero Canyon Preserve above the existing waterline and it must be relocated in order to ensure its structural integrity.

Location:

Pacific Palisades — Pacific Coast Highway, south of Temescal Canyon Rd.

Benefits:

Ensure structural integrity of water main, improve water supply reliability, and protect the health and safety of existing customers.

Status:

Construction phase

Construction:

Start Date - May 2020
